OUR COMPANY

REGENCY ALLIANCE INSURANCE PLC is one of the leading Insurance companies in Nigeria and the West African sub-region.

With over 20 years experience in the Nigerian insurance space, we remain unrivaled in the General Insurance business market. We provide only the best insurance service, cultivated from our deep underwriting expertise, superior claims handling and market experience. We offer a selection of customized Insurance products in collaboration with our Intermediaries and Technical Partners all over the world.

We hitherto were Regency Insurance Ltd., however following the merger and consolidation of four insurance companies in February 2007; Regency Alliance Insurance Plc was born.

Drawing from technical expertise and knowledge of both local and international markets acquired in the past two decades, we are constantly innovating to provide even better service to our customers.

Our clientele is growing progressively, and our business portfolio is expanding leading to the formation of subsidiaries. We are expanding our operations in West Africa, with a goal of unifying and growing the sub-regional insurance market

Our Board of Directors consists of distinguished and eminently qualified persons from key sectors of the economy.

Regency Alliance Insurance Plc is a publicly quoted company and listed on the Nigerian Stock Exchange market.

STATEMENT OF DIRECTORS' RESPONSIBILITIES

The Companies and Allied Matters Act 2020 requires the Directors to prepare financial statements for each financial year that give a true and fair view of the state of financial position of the company at the end of the year and of its financial performance. This responsibility includes:

- a) Ensuring that the company keeps proper accounting records that disclose, with reasonable accuracy, the financial position of the Company and comply with the requirements of the Companies and Allied Matters Act 2020.
- b) Designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; and
- c) Preparing the Company's financial statements using suitable accounting policies supported by reasonable and prudent judgments and estimates that are consistently applied.

The Directors accept responsibility for the Annual Financial Statements, which have been prepared using appropriate accounting policies supported by reasonable and prudent judgments and estimates, in conformity with,

- International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB);
- the requirements of the Insurance Act;
- relevant guidelines and circulars issued by the National Insurance Commission (NAICOM); and
- the requirements of the Companies and Allied Matters Act 2020

The Directors are of the opinion that the Financial Statements give a true and fair view of the state of the financial position of the Group and of its financial performance for the year. The Directors further accept responsibility for the maintenance of accounting records that may be relied upon in the preparation of financial statements, as well as adequate systems of internal financial control.

Nothing has come to the attention of the Directors to indicate that the Group will not remain a going concern for at least twelve months from the date of this statement.

Signed on behalf of the Board of Directors by:

DR. SAMMY OLANIYI
DIRECTOR
FRC/2013/CIIN/00000003716
DATED THIS 24TH DAY OF MARCH 2021

Mr. Clem Baiye
Acting Chairman

CHAIRMAN'S STATEMENT

Distinguished Shareholders, Colleagues on the Board of Directors, regulatory officials, gentlemen of the press, ladies and gentlemen. It is with much pleasure that I welcome you all to the 27th Annual General Meeting of our Company where the Audited Annual Financial Statements and Annual Reports will be presented to you. Let me begin by giving you an overview of the environment under which our company operated in the past year.

2020 BUSINESS OVERVIEW

Global

2020 was an unprecedented year, due to the coronavirus outbreak, as the global economy was suspended for almost six months during the year to safeguard human health. Oil prices plummeted to levels never seen before, airlines were grounded, hotels shut down, and all forms of congregational or socio-economic activity halted. This triggered a global recession across advanced and low-income countries, as GDP growth numbers printed nosedived amid demand and supply shocks. As such, the IMF estimates global GDP to contract by -4.4% in 2020. Surprisingly, stock markets in many advanced and emerging economies surged in response to massive monetary and fiscal stimulus. In Q3-2020, the global economy began to reopen as countries looked to recover from the sharp blow dealt by the pandemic. However, the cost of reopening was evident in Q4-2020, as the second wave of infections began in many advanced markets, particularly in the United States and Europe. This forced some countries to halt economic reopening and, in some cases, reintroduce lockdowns.

Domestic

Nigeria being part of the global market was negatively impacted by the effects of the global Covid-19 pandemic. Lagos and Ogun States together with the FCT were under total lockdown for April 2020 while most of the country were under different stages of lockdown during much of the year. This disrupted a lot of economic activity and led the country to a recession in the 3rd quarter of the year which was exited in the last quarter of 2020.

In addition to the above, the level of insecurity worsened and there were the End SARS protests which resulted in massive loss of life and property in different parts of the country in October 2020.

Inflation was on a steady rise during the year increasing from 11.98% in December 2019 to 15.75% in December 2020, the highest in three years.

On the fiscal side of things, the Federal Government recorded 89 per cent release to Ministries Departments and Agencies (MDAs) for the capital component of the 2020 budget and an overall

97.7% performance at year end. There was however a 65% drop in projected net 2020 government revenues from the oil and gas sector, which adversely affected foreign exchange inflows. The resultant effect being that the debt profile of the FGN grew from \$23,111.27m (foreign) and ₦14.273tn (local) in 2019 to \$28,574.45m (foreign) and ₦16.024tn (local) in 2020.

On a positive note, the All Share Index of The Nigerian Exchange Limited increased from 26,842.07 to 40,270.72, a 50.03% growth, thus making it one of the world's best performing Exchange in 2020.

The drop in Treasury bill rates and that of bank deposits which began in the third quarter of 2019 was sustained during the year 2020, impacting heavily on money market returns.

In 2020 the CBN devalued/adjusted the Naira on three occasions to ameliorate the pressure on the forex rate and bridge the gap between the official and parallel market rates. Interestingly the adjustments coupled with lower FX inflow extended the gap in both markets. Increasing demand for the US dollar, lower FX inflows and economic uncertainty are key factors that have pressured the foreign exchange rate during the year. As a result, the external reserves of the country declined from US\$38.595bn to US\$35.373bn, a drop of 8.35% year on year.

Insurance Industry Review

As a result of the economic disruption caused by Covid-19 pandemic, the National Insurance Commission (NAICOM) further extended the deadline for compliance of the new minimum capital to September 30, 2021 in a two-phased approach.

In November 2020, NAICOM issued operational licenses to six new insurance firms and one reinsurer in line with Market Conduct & Business Practice Guidelines.

2020 FINANCIAL HIGHLIGHTS OF THE COMPANY

There was a slight decline in the gross premium income from ₦3.946bn in 2019 to ₦3.878bn in 2020 or 1.71%, and a decrease of 2.52% in the Net earned premium from ₦2.539bn in 2019 to ₦2.475bn in 2020.

On the major expense items, while there was an 51.02% increase in net claims, there was a 8.73% decrease in Underwriting expenses and 3.96% decrease in Management Expenses when comparing the 2020 figures with that of 2019. The sharp increase in the net claims were due to increased claims from the oil and gas business line. The prudent effort of management to strategically curtail cost in the face of dwindling business prospects is highly commendable.

CHAIRMAN'S STATEMENT - cont'd

There was a significant drop of 19.46% in the investment income of our company due mainly to the low market rates.

Overall, there was a drop of 3.24% in Profit after tax from =N=649.594m in 2019 to =N=628.587m in 2020. It is expected that with things normalising in the economy our company, building on the gains of past financial discipline and strategic positioning, will continue to produce better results in future.

The total asset base of our company grew by 17.77% from =N=8.536bn in 2019 to =N=10.053bn in 2020, while the Shareholders fund stood at =N=6.329bn at the end of 2020, which is 11.02% higher than the position as at year end 2019.

For our group, the contribution of the subsidiaries to the overall profit after tax, after deducting that attributable to Non-Controlling Interests, decreased from a profit of =N=27.618m in 2019 to loss of =N=6.221m in 2020.

The total asset base of our group as at December 31, 2020 stood at =N=12.746bn, while the equity attributable to the company in the group at the same date was =N=6.474bn.

DIVIDENDS

The impressive result notwithstanding, your board is not recommending any dividend payout. This is to retain funds and adequately position the company to meet the new minimum share capital as prescribed by NAICOM.

RECAPITALISATION

A resolution was passed at the last AGM empowering your Board to take all necessary steps to meet up with the recapitalisation deadline. I can report that your company is currently in discussions with different investors, both local and foreign, with a view to injecting fresh funds. As at December 31, 2020 a sum of US\$700,000 has been received from an interested party and this has been reflected as a deposit for shares in the financial statements. Let me state that your company is also exploring the possibility of merger with other leading insurance companies as a back-up option. I want to reassure all our shareholders and other stakeholders that your company's fundamentals remain strong and we are well positioned to meet the new minimum capital requirements.

MOVING FORWARD

With the early passage and assent of the 2021 budget in December 2020, together with the assent of the Finance Act 2021, and the approval for the continued implementation of the 2020 capital budget well into 2021, it is expected that the perennial challenges of slow and poor budget implementation should become a thing of the past. Projections are that the economy will continue to grow in 2021 and your company is poised to take full advantage of the upsurge in economic activities.

On the recommendation of management, the board has approved the commencement of the construction of a befitting Head Office complex in Gbagada. Preliminary regulatory approval is currently on-going and once approved, the project is expected to last twelve months.

REGRETS

I regret to announce that in the course of the year, we lost our Regional Head (North) Aji Maina. I also regret the passage of one of our non-executive directors Col Aminu Isah Kontagora (rtd). Aminu, as I called him, was a fantastic gentleman. Humble, knowledgeable and forthright in his contributions. He will be sorely missed.

CONCLUSION

The Management and staff of our company are highly commended for their continued deep sense and display of loyalty, commitment, honesty, and dedication to duty in the year. Their efforts in moving the company forward will always be recognised and adequately rewarded.

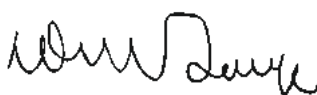

I must also appreciate our esteemed clients, agents, and brokers for continuing to do business with us. We trust we have earned your enduring confidence and we look forward to your increased support and patronage going forward.

I want to assure you all that Regency Alliance Insurance Plc is here for the long haul. We have strong confidence that Nigeria remains a land of immense opportunities and prospects. Our company is positioned to make the best of the brighter future ahead. We will always be guided by our corporate values of Professionalism, Integrity, Commitment and Efficiency as we create wealth for all our stakeholders while mitigating all associated risks that may arise.

Thank You all for your support and cooperation.

God bless Regency Alliance Insurance Plc.

God bless Nigeria.

Mr. Clem Baiye
FRC/2020/003/00000021054
Acting Chairman

REPORT OF THE EXTERNAL CONSULTANTS ON BOARD APPRAISAL OF REGENCY ALLIANCE INSURANCE PLC FOR THE YEAR ENDED 31ST DECEMBER, 2020

In compliance with the requirement of the Extant Laws and the Company's customary manner in imbibing with the Corporate Governance best practices for public companies, the Board of Regency Alliance Insurance Plc has engaged our firm; **Futures and Bonds Limited** to carry out the annual Board and Directors' evaluation, review and appraisal for the 2020 financial year. The exercise was guided by the provisions of the Extant Laws and Regulations as well as best practices. We summarized our findings as follows:

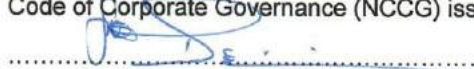

The Board is composed of a mix of Executives and Non-Executives. Board Members are seasoned professionals, who have excelled in various sectors including: Financial services and Agro-business. They possess the requisite integrity, skills and experience to bring to bear independent judgement on the deliberations and decisions of the Board. They have a good understanding of the insurance business and affairs to enable them properly evaluate information and responses provided by Management, and to provide objective challenge to the Management. The Executive Directors are qualified professionals with cognate experience in their areas of specialisation. There is also an Independent Director appointed by the Board based on the core value enshrined in the Code of Corporate Governance and the criteria laid down by the Regulators for the appointment of Independent Directors. The Independent Director do not have any significant shareholding interest or any special business relationship with the company.

In accordance with the Extant Laws, the Board Acting Chairman is a Non-Executive Director and his role is separate from that of the position of the Managing Director (MD). No one individual occupy the two positions at the same time thereby avoiding the issue of executive duality and avert overlapping of roles.

In spite of the global challenges faced by Corporate organisations in the year 2020 occasioned by the unplanned incidence of Covid-19 pandemic, Regency Alliance Insurance Plc has continued and is committed to upholding the creed and principles of Good Corporate Governance at all level of its operations. The Board of Directors have continued to ensure the implementation of Corporate Governance principles that guarantee transparency, prudence, fairness, accountability and social responsibility in all its business activities, thereby safeguarding the interest of all stakeholders. This has been the key to the continued long-term success of the Company.

The Board has put in place an appropriate level of checks and balances in order to ensure that decisions are taken with the best interest of the Company's Stakeholders in mind. Directors of the Company possess the right balance of expertise, skills and experience, which translates to an effective Board and an Executive Management team capable of steering the affairs of the Company in an ever changing and challenging environment. The Company has the right people to drive its business in the desired direction. In addition to the Board's direct functions, the Board exercises its oversight responsibilities through three (3) standing committees with clearly defined terms of reference, roles, responsibilities, functions and scope of authority.

The Company has complied substantially with the provisions of the Extant Laws, Regulations, Rules and Guidelines applicable to insurance business including that of "NAICOM" Code and the Nigeria Code of Corporate Governance (NCCG) issued by the Financial Reporting Council (FRC).

Late Aji Maina was the Regional Director of our North operation until his demise on the 11th of December 2020.

REPORT OF THE DIRECTORS

The Directors present their Annual Report on the affairs of Regency Alliance Insurance Plc. ("the Company") together with the Financial Statements and the Auditors' Report for the year ended 31 December 2020.

1. LEGAL FORM AND PRINCIPAL ACTIVITY

The Company was incorporated on the 16th day of June 1993 as a private limited liability Company known as "Regency Insurance Company Limited" and was licensed by NAICOM to underwrite all classes of Non-Life Insurance Business. On the 11th of March 2005, the Company was licensed to underwrite Life Insurance Business in addition to the Non-Life Insurance Business thereby becoming a composite Insurance Company.

In 2007, after a successful merger with three other companies, the Company's name was changed to Regency Alliance Insurance Plc. The Company was re-registered and licensed to underwrite all classes of Non-Life Insurance Business.

The Company's principal activity is the provision of General Insurance cover to Institutional and individual clients.

The Company has three subsidiaries: RIC Properties & Investment Limited, RIC Microfinance Bank Limited and RIC Technologies Limited, and one associate company, Regency NEM Insurance Ltd Ghana.

The information on the subsidiaries is provided in note 45 to the Audited Financial Statements and Reports.

	TOTAL	500,000.00	3,200,000.00

REPORT OF THE DIRECTORS - cont'd

7. HUMAN RESOURCES

(a) Employment of Disabled Persons

On the employment of physically challenged persons, the Company operates a non-discriminatory policy while considering applications received for employment. The Company engages the most qualified applicant after necessary assessment irrespective of the applicant's physical condition, state of origin, ethnicity or religion.

In the event of any employee becoming disabled in the course of employment, the Company is in a position to arrange appropriate training to ensure the continuity of his or her employment without subjecting such employee to any disadvantage in his/her career development.

(b) Health, Safety and Welfare at Workplace

The Company has continuously improved the work environment to make it safe for all stakeholders. It also ensures safety rules and procedures are strictly enforced at the workplace, the rules and procedures are reviewed regularly. Fire prevention and firefighting equipments are installed within the Company's premises and Members of staff are trained and re-trained on the use of the equipment.

As a result of the Global Pandemic, the Company in its efforts to ensure the prevention of the spread of the COVID-19 virus and staff protection provided within the Head Office Complex and all Branch Office Premises relevant and necessary safety items, all members of staff were taken through detailed counselling on best way to protect themselves within and outside the office complex.

The IT infrastructure of the Company was also made more robust to facilitate work offsite. While sitting arrangement within the office was restructured to ensure proper distance is maintained.

As part of the welfare scheme for staff, the Company maintains medical scheme which provides medical facilities to members of staff and their immediate families. In addition, the Company also maintains Group Personal Accident and Life Insurance covers for all members of staff. In compliance with the Pensions Reforms Act 2004, the Company maintains a contributory pension plan for all members of staff.

(c) Training and Development

The development of the skills of the work force is regarded as having direct relationship with the performance and profitability of the Company, as such, the Company maintains a policy of continuous Training and Development of members of staff for optimal performance.

Unfortunately however, during the year under review, the Global Pandemic with the resultant effects disrupted the training plans of the Company substantially. That notwithstanding some of the staff were still able to attend some relevant external virtual training.

(d) Gender Analysis

The Company maintains a non-discriminatory gender employment policy and ensures adequate attention is given to gender parity in employing its work force. The structure of the workforce as at the 31st December 2020 is as shown below;

S/N	CATEGORY	MALE NUMBER	FEMALE NUMBER	TOTAL	MALE %	FEMALE %
1	JUNIOR STAFF	42	22	64	66	34
2	SENIOR STAFF	7	5	12	58	42
3	LOWER MANAGEMENT	9	7	16	56	44
4	SENIOR MANAGEMENT	15	7	22	68	32
	TOTAL	73	41	114	64	36

REPORT OF THE DIRECTORS - cont'd

8. ACQUISITION OF OWN SHARES

The Company did not acquire any of its own shares during the year under review.

9. RECAPITALISATION.

In May 2019 the NAICOM directed that all Insurance Companies in Nigeria should recapitalise, the Board immediately set about this, as a result of a series of occurrences including the global Covid-19 pandemics, the Regulator on the 20th of June 2020 made an amendment requiring 50% recapitalization by the 31st December 2020 and full recapitalization by the 30th September 2021.

The Board is glad to report that as at the 31st of December 2020 the Company had gone beyond the 50% recapitalisation. Though there seem to be no clear directive on the recapitalisation as a result of it being challenged, the Board is not relenting on its efforts to ensure the Company is fully recapitalised so as to remain competitive in the Industry.

10. EFFECT OF COVID - 19 ON THE COMPANY'S OPERATIONS

Since December 2019, the spread of COVID-19 has severely impacted many local economies around the globe. In many countries, businesses were forced to cease or limit operations for long or indefinite periods of time. Measures taken to contain the spread of the virus, including travel bans, quarantines, social distancing, and closures of non-essential services have triggered significant disruptions to businesses worldwide, resulting in an economic slowdown. Global stock markets have also experienced great volatility and a significant weakening. Governments and central banks have responded with monetary and fiscal interventions to stabilise economic conditions.

The Company has identified the following as high-risk areas in the Covid-19 and Post Covid-19 era.

Business Risk
Operational Risk
Investment Risk
Liquidity Risk
Regulatory Risk
Fiscal & monetary policy Risk
Foreign Exchange volatility Risk
Cybersecurity Risk
Customer attrition Risk
Health, Safety and Environment Risk

Below are the likely impact of the aforementioned risks and steps taken and to be taken to mitigate the effects thereof.

Business Risk

Based on available data on the divergent impact of the pandemic on the different economic sectors, the PWC (April 2020) predicted that the most impacted sectors in Nigeria were: Aviation, oil & gas travels, hospitality, tourism, entertainments, events managements and expected general slack in investments in new entrepreneurial activities due to pressure on incomes.

Our policyholder's portfolio characteristics shows that about 37.71% of our total GPI was exposed to seriously impacted industries as aviation and oil & gas for the entirety of 2019. During the second quarter of 2019, the income generated was about 29% of the year's income. The Company recorded fair performance in these sectors in the year however, just like others in the sector and across the world, experienced a hit in these sectors.

We were able to sustain insurance contracts as envisaged in our COVID 19 impact report albeit slowly with remarkable losses due to closure of the economy as the impact of the Pandemic grounded the economy while the discounted premium policy or demands did not materialised to the extent that could have impacted our performance ratings beyond the extent envisaged, we were able to sustain our market performance but the greater challenge was securing more insurance contracts from these sectors beyond the COVID era as restrictions continued to affect global economic performance.

The 15% downward review of our revenue projection served as our protective shield in gauging our business risk limit and how the Company hope to perform in 2021. However, our cost saving measures are expected to make positive impact on our non-technical expenses.

REPORT OF THE DIRECTORS - cont'd

Operational Risk

In the area of operations, the Company has a cloud-based software package which is easily accessible online. Technical (Underwriting, Claims/Reinsurance) and Finance Operations are fully functional online real-time 24/7. The Company also uses online meeting tools for management and departmental meetings where issues and matters can be discussed, agreed and implemented. In addition, payments are received and made via the various online bank channels. All payments go through the normal approving channels albeit online. The Company did not experience any disruption of her activities in any aspect beyond residual risks that are manageable within the acceptable risk levels.

Investment Risk

The COVID impact on the market is the volatility dynamics through the interplay of various risks which affected investors' confidence. Gains in the capital market offset some of the pandemic induced losses but insurance stocks performance was generally cold which did not improve valuation. This was made worse by the huge drop in money market incomes, a general characteristic of the market responses to investments activities. As a result, the profitability of the Company was affected and the Company will continue to review its financial risks to protect its value so as to build greater confidence into the new year.

Liquidity Risk

Based on change in investments position from the systematic market effect on the Company's portfolio, this impacted the asset-liability balance due to incomes loss at the asset end. This required the Company to finance its liability through its investments portfolio and other alternative available funding opportunities in absorb the shock.

The Company was able to meet its liquidity requirements. Adequate reinsurance cover is in place for our lines of business and cash calls were utilised where necessary.

Regulatory Risk

The Legal and Compliance Department continued to notify Executive Management, Management together with all relevant Departments of any new legislation, guideline or directive as given from time to time.

In addition, The Internal Audit conducted regulatory compliance audit in line with the Internal Audit mandate. Insurance businesses are generally incepted on a No-Premium No-Cover basis, while allowing for a 30-day window in line with NAICOM guidelines. The Company continue to ensure strict compliance and in line with Regulations, report defaulters in accordance with industry best practices.

Foreign Exchange Volatility Risk

The Company has been managing this risk by ensuring that assets are held in foreign currencies to match the estimated liabilities that may arise. These assets also generate income as they are interest earning.

The Company also does scenario planning which anticipates multiple exchange rates where the foreign currency liabilities cannot be matched by the foreign currency assets (in the area of cash and bank balances) and plans the volumes of transactions against worse-case scenarios. The impact of the foreign exchange volatility risk is disclosed in the Financial Statements in line with IFRS

Cybersecurity risk

One of the fallouts of the post Covid-19 pandemic is the rise in the use of the Internet in business transactions together with remote working which entails the use of different devices outside the office.

The three main goals of Cybersecurity are Confidentiality, Integrity and Accessibility of data and information contained on the company's software.

The Company's cybersecurity architecture has been enhanced to address the various threats and vulnerabilities that can arise.

The Company will continue to build capacity to respond and stay resilient to any cyber-attack. We intend to conduct Data Privacy Impact Assessment of existing processes.

REPORT OF THE DIRECTORS - cont'd

The Company will continue to:

- a. Raise awareness, with the Company warning all staff of the heightened risk of COVID-19 themes phishing attacks
- b. Enhance security awareness to all customers via email and text messages, providing tips on safe use of the Company's digital channels.
- c. Share definitive sources of advice on how to stay safe and provide regular communications on the approach the Company is taking to the COVID-19 pandemic
- d. Ensure that all staff set up strong passwords,
- e. Provide remote workers with straightforward guidance on how to use remote working solutions including how to make sure they remain secure and tips on the identification of phishing
- f. Assess third-party risks of vendors who provide support for critical systems, digital interfaces and channels.
- g. Ensure that all provided laptops and devices on which Company's software is run have up to date anti-virus and firewall software
- h. Run helpline and online chat line which were easily accessible for advice, for any security concerns including potential phishing
- i. Disable USB drives to avoid the risk of malware.

Technology Infrastructure Risk

The Company over the years has continued to invest in technology infrastructure. It has and will continue to develop a technology strategy that aligns with business objectives through adequate governance for technology infrastructure management and investment. Presently, the Company's network is cloud based and this is closely being monitored in line with Cybersecurity risk policy.

In addition to the above, the Company is updating its technology risk management framework.

Customer Attrition Risk

The Company realises that the tastes and demands of her customers are ever evolving and dynamic. It also appreciates that due to the downturn in the economy, the preference for insurance among individual and corporate entities will reduce.

In view of the above, the Company has set out a clear vision for improved and interactive customer experience. The Company intends to use both data analytics and technology to develop new products that will be customer tailored and regulatory compliant.

The Company will also improve on its brand visibility by making the Company a household name. Our pricing policy and payment model will reflect the realities of the time.

Health, Safety and Environment Risk

The Covid-19 pandemic has brought to the fore the Health, safety and environment risk that can adversely affect the Company. In line with the NCDC guidelines, the Company:

- a. Developed and activated an infectious disease preparedness action plan to reduce the risk of exposure in the workplace and communicate it to all staff members which enabled it to avoid any major disruption to its operations.
- b. Ensured the contact details and emergency contact details of all staff members were kept up to date and were always easily accessible for use both by the company or whenever statutorily required.
- c. Ensured that staff members, through different media forms, know how to spot the symptoms of coronavirus and they have a clear understanding what to do if they feel unwell
- d. Provided handwashing facilities and ensure employees have access to water and soap, and sanitisers and also ensure that the working environment is kept clean and safe.
- e. Developed policies and practices that will enable staff to work more flexibly and remotely e.g. working from home
- f. Developed and enforced social distancing strategies to safeguard the health and safety of employees whose role requires face-to-face interactions with customers
- g. Discouraged the sharing of work equipment, tools, computers, phones and desks
- h. Limited face-to-face meetings with clients, but promoted the use of meeting technology support systems in conducting business meeting virtually and remotely
- i. Stayed abreast of guidelines and recommendations from federal and state health authorities, regarding changes in national directives as a result of the changing transition of coronavirus locally and nationally

REPORT OF THE DIRECTORS - cont'd

11. EFFECT OF THE ENDSARS UNREST ON THE COMPANY'S OPERATIONS

The civil unrest which broke out in the city of Lagos in October 2020 which is widely referred to as the #EndSARS unrest was not without its effect on the Company.

Several claim reports in huge amounts have been received. The reports have been documented and are receiving attention.

The Company remains committed to fulfilling its obligations to all our clients always.

12. EVENTS AFTER THE REPORTING PERIOD

As at 31st December 2020, there were no events after the reporting period which could have material effects on the financial position of the Company and profit attributable to the equity shareholders.

13. AUDITORS

The Auditors, Messrs. TAC Professional Services have indicated their interest to continue serving the Company.

BY ORDER OF THE BOARD

ANU SHOBO
COMPANY SECRETARY
FRC/2013/NBA/00000003654
LAGOS, NIGERIA
24TH MARCH, 2021

CORPORATE GOVERNANCE REPORT

INTRODUCTION

The Company embraced the principles of Corporate Governance in all areas of its operations for the achievement of its corporate goals and enhancing the interest of all stakeholders. The Company complied with all applicable Corporate Governance Regulations as well as international best practices. During the reporting period, the Board made use of Committees with clearly defined terms of reference for its oversight functions. The Company has also entrenched the principles of Accountability and Transparency in Financial Reporting.

1. BOARD OF DIRECTORS

The Board is made up of highly respected individuals who are well exposed and experienced in their chosen professional fields with sufficient experience in insurance thus enabling them to provide broad guidance and oversight Functions for the Company.

During the year under review the Board consisted of 6 Directors (Executive and Non-Executive)

No two members of the same extended family are members of the Board.

1.1 ROLE OF THE BOARD

The Board had continued to play the underlisted roles amongst others.

- Ensuring good governance of the Company
- Setting performance objectives and ensuring the right strategies are employed to achieve set objectives.
- Formulation and Management of the Company's Risk Management Framework.
- Monitoring and evaluating Management performance and implementation of set objectives.
- Succession planning, appointment, appraisal and compensation for Board members and Senior Management staff.
- Performance appraisal and compensation of Board members and senior executives;
- Ensuring the financial and accounting integrity of the Company and the maintenance of ethical standards.
- Overseeing the effectiveness and adequacy of internal control systems;
- Ensuring that appropriate checks and balances are in place in compliance with the applicable Laws.
- Ensuring that the Company's operations are conducted in a fair and transparent manner that conforms to high ethical standards.
- Ensuring effective communication with shareholders and other stakeholders of the Company.

1.2 CHAIRMAN AND CHIEF EXECUTIVE OFFICER

In compliance with the provisions of the existing Codes of Corporate Governance and best practice, the person, position, role and responsibilities of the Acting Chairman and the Managing Director/ Chief Executive Officer are separate and distinct.

THE CHAIRMAN

The Chairman of the Board retired as a Director and the Chairman of the Board of Directors with effect from Tuesday the 31st day of December 2019.

The Acting Chairman of the Board is a Non - Executive Director. He is responsible for managing and providing leadership for the Board. He ensures that adequate information in respect of the operations and performance of the Company is received by all Board members as at when due. The Acting Chairman, apart from ensuring that the Board functions cohesively also presides over and ensures that Meetings of the Board are properly conducted. The Acting Chairman oversees the Annual Board evaluation process and discusses the outcome with individual Directors. He also presides over the general meeting of Shareholders.

THE MANAGING DIRECTOR

The Managing Director is the Chief Executive Officer and head of the Management team. He is charged with the responsibility of overseeing the day-to-day administration of the Company, ensuring the Implementations of strategic and financial policies as well as compliance with relevant Regulatory Provisions. The Managing Director reports regularly to the Board.

1.3 THE INDEPENDENT DIRECTOR

The Independent Director was appointed in compliance with the existing Codes of Corporate Governance. He does not have other business interests in the Company. As an Independent Director, he is responsible for the protection of the rights and interests of Shareholders.

1.4 BOARD CHANGES

The Chairman of the Board, Amb. Baba Gana Kingibe GCON, retired as a Director and the Chairman of the Board of Directors with effect from Tuesday the 31st day of December 2019. Subsequently the Board appointed Mr. Clem Baiye as the Acting Chairman of the Board of Directors with effect from the 27th of February 2020.

1.5 BOARD APPOINTMENT PROCESS

The Establishment and General-Purpose Committee of the Board is charged with the responsibility of leading the process of identifying, evaluating and nominating suitable persons to the Board for the purpose of appointing them to the Board.

The Committee considers candidates on merit against set objective and criteria for the benefit of diversity on the Board as well as the balance and mix of appropriate skills and experience.

1.6 BOARD PERFORMANCE EVALUATION

In compliance with the provisions of the Codes of Corporate Governance and as part of the Company's commitment to sound Corporate Governance practice, the Company ensured that the Performance of individual Directors and the Board is evaluated annually through a system of independent evaluation.

CORPORATE GOVERNANCE REPORT - cont'd

The Evaluation is undertaken by a competent external consultant and it covers all areas of the Board operation including appointment, individual competence, structure and relationship with the Company.

1.7 MEETINGS OF THE BOARD

As a result of the Global pandemic, a number of the meetings of the Board were held virtually. The Pandemic notwithstanding, the Board was still able to comply with the Extant Laws and Regulations and met once every quarter of the year making a total of four meetings during the year under review. At the meetings the Board performed their responsibilities, formulated policies, evaluated performance of the Company, provided strategic direction and leadership in attaining the Company's objectives.

2.5 EXECUTIVE COMMITTEE

To assist the Managing Director in the day-to-day running of the Company, the Executive Committee of the Company which consists of the Managing Director/Chief Executive Officer and the Executive Directors was put together. The Committee's primary responsibility is the implementation of policies approved by the Board, the implementation of Financial and Strategic policies of the Company with a view to ensuring the Company remains profitable.

3. POLICIES AND PROCEDURES

3.1. Whistle blowing policy

In line with good Corporate Governance and best practice, the Company has in place a whistle Blowing policy. The policy makes provisions for clients, shareholders, stakeholders, and employees to disclose timeously any on - going illegal, illegitimate or suspicious activity in the Company which may affect the interest of the Company and or its shareholders/stakeholders. The whistle blower is adequately protected by the provisions of the policy.

During the year under review there was no whistle blowing activity.

3.2. Anti-Corruption Policy.

The Company is committed to high ethical standards and integrity in all transactions and does not tolerate corruption in any way. There is in place an Anti-Corruption Policy which guides the performance of duties and relationship of members of staff with clients and other parties with whom the Company transacts business howsoever.

The Internal Audit Department of the Company on a quarterly basis audits and reports on fraud and other malpractices if any. There was no record of any corrupt practices throughout the year under review.

3.3. Risk Management

The Company is in business basically to underwrite risk; however, the Company has put in place policies and procedures to identify, assess, evaluate and mitigate risks generally associated with its business.

The Company has in place a Risk Management Policy which clearly sets Risk appetite and procedures for identifying, evaluating and mitigating risks.

The Enterprise Risk Management Department through the Management is accountable to the Board for the proper assessment, management and mitigation of risks. Management reports regularly to the Enterprise Risk Management Committee of the Board.

3.4. COMPLAINT POLICY AND PROCEDURE

The Company has continued to strive to ensure maximum satisfaction of clients and stakeholders and views the satisfaction of clients and other stakeholders as very important. However, in the unlikely event of any client or stakeholder being dissatisfied or having a complaint whatsoever, the Company has in place a robust complaint procedure to resolve promptly and satisfactorily complaints from any client and or stakeholder. The policy and procedure are on the Company's website www.regencyalliance.com

3.5. STAFF CODE OF CONDUCT

To ensure all members of staff are constantly at their best, a Code which states the expected professional behavior of all members of staff from assumption of duties is in place. All members of staff subscribe to the Code and are guided in the performance of their official duties by the Code.

3.6. SECURITY TRADING POLICY & PRICE SENSITIVE INFORMATION

The Company's Security Trading Policy prohibits insider trading by Directors, Management Staff, Employees, Related Entities, Associates, Consultants, Employees of subsidiaries and related persons who in the course of their duties are privy to price sensitive information.

They are also precluded from passing such price sensitive information to third parties for the purpose of trading in the Company's shares.

Directors and employees have responsibility to inform the Company Secretary of every transaction in their shares and notify Securities and Exchange Commission within 48 hours of the occurrence of the transaction.

During the year under review, enquiries revealed that the Directors complied with the provisions of the Company's Security Trading Policy and The Nigerian Exchange Limited Rules relating to information disclosure.

4. Corporate Social Responsibility

The Company considers certain values integral to its business and these values drive its decisions. We value:

- Our commitment to provide excellent service to our customers, with integrity, at all times
- Improving our immediate community (and the nation)
- Assisting our staff to thrive professionally and personally

We understand that the way we engage our customers, affect not only our organization but also our community and business environ. We ensure that by meeting our present business needs,

CORPORATE GOVERNANCE REPORT - cont'd

we do not neglect or hinder the future generation from meeting their own. Our Corporate Social Responsibility goal is to add value to our community and nation at large.

We believe that our immediate community (and nation) should benefit from our presence. We operate an inclusive strategy and therefore encourage our employees to volunteer towards activities that align with our CSR objective.

Our Focal Areas

The Company's CSR agenda is focused on

- Infrastructure Building
- Youth Empowerment
- Community outreach & Charity projects

Infrastructure Building

The Company actively supports the government's efforts in developing the country's physical infrastructure. We are happy to undertake small projects around us, e.g., road repair and renovation, beautification, and landscaping amongst others within our environs.

Youth Empowerment

The Company is committed to educating, empowering, and inspiring the youth, through effective and innovative value adding activities. We encourage and reward academic excellence by offering guidance, mentorship, and job opportunities for exceptional students.

Charity Projects/Outreach

The Company believes strongly in giving back to the community and caring for those in need. Our outreach programs represent an opportunity for us and our staff to give back to the community. Every year, we visit and donate money and gift items to many charitable organizations.

5. SUSTAINABILITY

The Company believes in the continuous existence and the ability to constantly improve without the depletion of natural resources and the maintenance of ecological balance.

Risk Management

The Company has a well detailed Enterprise Risk Management (ERM) framework which is one of the pillars of the Company's overall corporate business strategy. The Board is responsible for the risk strategy, setting the overall risk appetite limits and ensuring that the Company has an adequate and effective Internal Control Framework.

Risks that arise from sustainability issues are addressed and managed in line with the company's Environment, Social and Governance (ESG) guiding considerations. The Company has an Environmental Safety and Management System (ESMS) Framework which ensures all projects and processes undergo risk evaluation as part of a comprehensive environmental and social risk due diligence process.

The Framework is designed to ensure that there is adequate identification and mitigation of risks, compliance with current laws and regulations and best global practices as it relates to Health, Safety and Environment (HSE) matters. The framework will be reviewed and updated at least annually.

Anti-corruption

Management awareness, involvement and responsibility are vital in ensuring adequate anti-bribery and anti-corruption systems and controls are in place and that appropriate resources are allocated to mitigate identified risks.

The Management understands the bribery and corruption risks faced by the Company and has responsibility for overseeing the risks associated with it and there is clarity among front-line staff about the anti-bribery and corruption standards expected, particularly in their dealings with third parties.

Management is responsible for making appropriate assessment of financial risks, including those relating to bribery and corruption, maintaining effective systems and controls for countering the risk that the Company might be used to further financial crime. The Company therefore assesses the risks of becoming involved in or facilitating bribery and corruption and takes reasonable steps to prevent those risks crystallizing.

The Company fully supports the UN Charter on Anti-Corruption and has taken steps to:

1. Prevent corrupt activities in all our dealings
2. Support law enforcement agencies in the investigation of corrupt activities and
3. Work with all bodies, within and without Nigeria in anti-corruption activities

In view of the above, the Company has an anti-corruption policy manual which is given to all staff on assumption of the duties in the Company and to all who act on behalf of the Company.

Under the Company's anti-corruption policy, no staff or person acting on behalf of the Company in any respect whatsoever is to:

- a. Give, promise to give, or offer, a payment, gift or hospitality with the expectation or hope that a business advantage will be received, or to reward a business advantage already given;
- b. Give, promise to give, or offer, a payment, gift or hospitality to a government official, agent or representative to "facilitate" or expedite a routine procedure;
- c. Accept payment from a third party that you know or suspect is offered with the expectation that it will obtain a business advantage for them;
- d. Accept a gift or hospitality from a third party if you know or suspect that it is offered or provided with an expectation that a business advantage will be provided by us in return;

CORPORATE GOVERNANCE REPORT - cont'd

- e. Threaten or retaliate against another worker who has refused to commit a bribery offence or who has raised concerns under this policy; or
- f. Engage in any activity that might lead to a breach of this policy.

The Company often deals with wide range of classes of business and third parties.

The Company also considers which sectors are higher risk, because of factors such as large contracts, high levels of competition, the use of third parties to win business and state involvement. Examples of classes of business generally regarded as higher risk are aviation and energy; however, the company also considers whether other classes of business have characteristics which might heighten the risk of bribery and corruption.

From time to time, through communication and training, members of staff and others are updated on matters concerning anti-bribery and anti-corruption.

The compliance and legal department is aware of the correct procedure for reporting of Suspicious Transaction and do submit report as at when due to the Nigeria Financial Intelligence Unit(NFIU)

The Company, its staff and all acting on its behalf have been acting in compliance with the anti-corruption policy. Where there is a concern or question, the Company's policy allows for persons concerned to report it immediately to one of the following:

- The staff's Head of Department
- Legal and Compliance Department
- Head of Internal Audit.

The Company has no record of any corrupt incident involving members of staff, its agents or others representing the Company. In addition, the Company has neither been fined by any court of law and tribunal in respect of any corrupt practice.

Stakeholders

The main function of insurance is to protect the probable chances of loss. Insurance is important because both human life and business environment are characterised by risk and uncertainty. Insurance plays a key role in mitigation of risks. The time and amount of losses are uncertain and on the occurrence of risk, the person will suffer the loss in the absence of insurance. Insurance guarantees the payment of loss and thus protects the assured from sufferings.

The Company remains passionate and dedicated to managing the potential environmental and social risks of our business and applying the appropriate standards in the review of our business operations and those of our stakeholders, as well as in our relationship with the communities in which we operate.

The Company conducts operations within the financial market by collaborating with various indirect market actors which are the

stakeholders. They include the owners, managers and employees of insurance undertakings, agents, insurance brokers, private and institutional clients, banks, reinsurers.

The Company is making significant contribution to socioeconomic development by creating awareness through training and building the capacity of our employees in the subject of sustainability and enlightening our customers, clients, and all other stakeholders.

We seek to increase our clients' understanding of how environmental and social issues can impact their business, thereby reducing resistance to environmental and social risk management requirements and developing strong partnership for sustainability.

Diversity in the Workplace

The Company believes and operates diversity across the workplace at all levels in alignment with our organisational culture and demography. This has helped with creative new ideas and perspectives resulting in competitive advantage over others with increased customers satisfaction.

Energy

We ensure efficient use and consumption of energy within the organization and reduce energy wastage.

The Company ensures that its alternate energy supply source is user friendly and safe for the environment causing no hazards to the environment.

6. SHARE HOLDING AND LEGAL STRUCTURE

There was no material alteration in the shareholding structure of the Company except for the usual changes as a result of it being traded on in the Capital market.

The Company remains 100% owned by individuals and corporate organisations.

6.1 SHAREHOLDERS PROTECTION

The Board is responsible for the protection of the statutory and general rights of the shareholders. The Board therefore ensures that all shareholders irrespective of the volume of their holding are treated fairly and they enjoy equal rights and access to information about the Company. The Company's report and other relevant information are made available to shareholders in plain easy to understand format.

7. RETIREMENT OF DIRECTORS BY ROTATION

In accordance with section 285 of the Companies and Allied Matters Act, 2020, Mr. Matt Osayaba Aikhionbare, OON retire by rotation, but being eligible offer himself for re-election.

8. COMPANY SECRETARY

The Company Secretary provides the needed support for the Board. The duties of the Company Secretary include updating Board members regularly with relevant information, planning and organising training for Directors, scheduling and arranging Board meetings as well as ensuring that the proceedings of the meetings are accurately recorded.

The Company Secretary also acts as a link between the Audit Committee and the Board.

In addition to the support provided by the office of the Company Secretary to the Board, the Board reserves the right to seek and obtain advise as it may require from relevant independent external professionals at the Company's expense.

9. STATEMENT OF COMPLIANCE

The Company as public limited liability Company with its shares quoted on The Nigerian Exchange Limited is subject to the provisions of the National Code of Corporate Governance 2018, Securities and Exchange Commission's Code of Corporate Governance as well as the National Insurance Commission Code of Corporate Governance. The Board of Director is charged with the responsibility of ensuring compliance with these Codes of Corporate Governance, the Board hereby submits that the Company complied with the provisions of the codes during the year under review.

10. COMPLIANCE WITH EXISTING LAWS AND REGULATION

The Company's activities are regulated primarily by the National Insurance Commission, as a Company quoted on The Nigerian Exchange Limited, the Company is also responsible to The Nigerian Exchange Limited, The Securities and Exchange Commission as well as the Financial Reporting Council and the Corporate Affairs Commission.

The Company reports to the Nigerian Financial Intelligence Unit of the Economic and Financial Crimes Commission on matters relating to money laundering and combating the financing of terrorism

INDEPENDENT AUDITORS REPORT

TO THE MEMBERS OF REGENCY ALLIANCE INSURANCE PLC

Report on the Audited Financial Statements

Opinion

We have audited the consolidated financial statements of **Regency Alliance Insurance Plc ("the Company")** and its subsidiaries (together "the Group") set out on pages 60 to 95, which comprise the consolidated and separate statements of financial position as at 31 December 2020, and the consolidated and separate statements of profit or loss and other comprehensive income, the consolidated and separate statement of changes in equity and the consolidated and separate statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory notes.

In our opinion, these financial statements present fairly, in all material respects, the financial position of **Regency Alliance Insurance Plc ("the Company")** and its subsidiaries (together "the Group") as at 31 December 2020, and of the consolidated financial performance and consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs), and the requirements of the Companies and Allied Matters Act of Nigeria, Cap C20 LFN 2020, the Insurance Act 2003, the Financial Reporting Council of Nigeria Act No.6 2011 and relevant National Insurance Commission (NAICOM) guidelines and circulars.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the consolidated Financial Statements section of our report. We are independent of the group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of **Regency Alliance Insurance Plc** in Nigeria, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matters	How the matter was addressed in the Audit
<p>1. Valuation of outstanding claims provision</p> <p>The outstanding claims provision included in NOTE 17 of the financial statements is made up of reported claims and incurred but not reported ("IBNR") claims.</p> <p>As disclosed in NOTE 17 to the financial statements, the estimation of outstanding claims involves significant judgement given the uncertainty in estimating the amounts likely to be paid in settlement of notified claims. There is</p>	<p>We evaluated and tested controls around the claim handling settling and valuation.</p> <p>We tested the reasonableness of the company's estimation process for a sample of claims outstanding by comparing the estimated claims provision to supporting document.</p>

A MEMBER OF

YOUR GLOBAL ADVANTAGE

• Audit • Forensic • Taxation • Financial • Business Advisory •

further uncertainty in relation to IBNR claims as there is generally less information available in relation to these claims. The IBNR provision is determined annually by the company's consulting actuaries who provide an estimate for the valuation which relies on accuracy of claims data and the assumption that future claims development will follow a similar pattern to past claims development experience.

2. Impact of COVID-19 Subsequent Event

As disclosed in Note 55, subsequent to the balance sheet date and up to the point of reporting there has been a global pandemic of a new strain of Coronavirus (COVID-19). The virus, and responses taken by organisations and governments to manage its spread in markets to which the Group and company is exposed, have led to increased volatility and economic disruption.

3. Valuation of investment properties

Investment properties was revalued from N495,962,253 to N505,000,000 during the financial year. Management, through an independent valuation expert valued the investment property. The determination of the fair value of investment properties requires significant judgement and, as such, was an area of focus for the audit.

We performed a review of the methodology and assumptions used by the appointed actuary to compute the actuarial reserve as at 31 December 2020 and compared the assumptions to expectations based on the company's historical experience current trends and our industry knowledge.

We assessed management's approach to the impact of COVID-19 on the Group and the financial statements by performing the following procedures:

- Evaluated management's stress and scenario testing and challenged management's key assumptions considering its consistency with other available information and our understanding of the business;
- Assessed the disclosures made by management in the financial statements and checked consistency of the disclosures with our knowledge of the Group based on our audit.

KEY OBSERVATIONS

Based on the work performed and the evidence obtained, we consider the disclosure of the potential impact of COVID-19 in the financial statements to be appropriate.

We assessed the competence and objectivity of the property valuers in order to determine whether they were appropriately qualified and whether there was any affiliation to the Group.

We assessed the appropriateness of the valuation methodology used in order to evaluate whether it was suitable for determining market value in accordance with the financial reporting framework.

Going Concern

The consolidated financial statements have been prepared using the going concern basis of accounting. The use of this basis of accounting is appropriate unless management either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so. As part of our audit of the consolidated financial statements, we have concluded that management's use of the going concern basis of accounting in the preparation of the consolidated financial statements is appropriate.

Management has not identified a material uncertainty that may cast significant doubt on the Group's ability to continue as a going concern, and accordingly none is disclosed in the consolidated financial statements. Based on our audit of the consolidated financial statements, we also have not identified such a material uncertainty. However, neither management nor the auditor can guarantee the Group's ability to continue as going concern.

Information Other than the Financial Statements and Audit Report thereon

The Directors are responsible for the other information. The other information comprises the information included in [the directors' report, chairman's statement, audit committee report, Value added statement and financial summary but does not include the consolidated financial statements and our audit report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors and Those Charged with Governance for the Consolidated Financial Statements

The company's directors are responsible for the preparation and fair presentation of the consolidated financial statements in accordance with International Financial Reporting Standards, and requirements of the Companies and Allied Matters Act of Nigeria, Cap C20 LFN 2020, the Financial Reporting Council of Nigeria Act, 2011, the Insurance Act 2003 and relevant National Insurance Commission (NAICOM) guidelines and circulars and for such internal control as the directors determine is necessary to enable the preparation of the consolidated financial statements that are free from material misstatements, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the group to cease to continue as a going concern. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

•Audit •Forensic •Taxation •Financial •Business Advisory•

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the group to express an opinion on the consolidated financial statements.

We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

In accordance with the requirement of Schedule 6 of the Companies and Allied Matters Act of Nigeria Cap C20 LFN 2020 and section 28(2) of the Insurance Act 2003, we confirmed that:

1. we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
2. in our opinion proper books of account have been kept by the company, so far as appears from our examination of those books; and
3. The group's statement of financial position and profit and loss account are in agreement with the books of account.
4. In accordance with the provision of section 28(2) of the Insurance Act 2003 the group Statement of financial Position and Statement of Profit or Loss respectively gives a true and fair view of the financial position and financial performance of the group.

Contraventions

The Company paid a penalty of N500,000 on the re-submission of 2019 Audited Financial Statement to NAICOM and N100,000 to FRC.

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES - cont'd

1.0 GENERAL INFORMATION

1.1 Reporting Entity

The company was incorporated in Nigeria under the Companies and Allied Matters Decree 1990 as Regency Insurance Company Limited on the 16th day of June 1993 and was licensed by the National Insurance Commission (NAICOM) to underwrite all classes of Non-Life insurance business. On the 11th day of March 2005, the company obtained license to underwrite Life Insurance business in addition to the Non-Life Insurance business thereby becoming a composite insurance company. However, after a successful merger with three other companies in 2007, the Company's name was changed to Regency Alliance Insurance Plc.

The Company, which is listed on The Nigerian Exchange Limited, was registered and now licensed to underwrite all classes of Non-Life Insurance business risk associated with accident, fire, marine and oil and gas among others. The registered address of the company is at 2, Eburn Street, Gbagada Lagos, Nigeria.

1.2 Going Concern

The financial statements of Regency Alliance Insurance Plc and its subsidiaries have been prepared on a going concern basis. The Directors of the Company have a reasonable expectation that the group and the Company have adequate resources to continue in operational existence for the foreseeable future. The annual financial statement of the group for the year ended 31 December 2020 comprises the parent company and its subsidiaries.

1.3 Principal Activities

Regency Alliance Insurance Plc. and its subsidiaries (the Group) are engaged in various business lines ranging from general accident insurance, oil/gas insurance, property leasing and investment and banking business.

The underwriting strategy adopted by the Group attempts to ensure that the underwritten risks are well diversified in terms of type, amount of risk and industry.

The Company's principal activity continues to include risk management and claims advisory services to corporate and retail customers in Nigeria. The Company's insurance claims received prompt and effective services to all numerous clients and the Company takes all reasonable steps to ensure that it has appropriate information regarding its claims exposures. The investment portfolio of the Company ranges from financial instruments, investment in unquoted shares and subsidiaries.

1.4 Authorisation For Issue

The consolidated financial statements, including the assets and liabilities of the Company and its Subsidiaries,

and were approved for issue by the Board on 24th March 2021.

2.0. Basis of Preparation

2.1 Statement of Compliance with International Financial Reporting Standards

The consolidated and separate financial statements of the Group have been prepared in accordance with and comply with International Financial Reporting Standards (IFRSs), as issued by the International Accounting Standards Board (IASB) and adopted by the Financial Reporting Council of Nigeria.

Statement of Compliance

The consolidated and separate financial statement of the group comply with, International Financial Reporting Standards (IFRS), Companies and Allied Matters Act CAP C20 LFN 2004, Financial Reporting Council Act 2011, Investment and Securities Act 2007, Insurance Act 2003 of Nigeria, relevant National Insurance Commission (NAICOM) guidelines and circulars, the Banking's and Other Financial Institutions Act of Nigeria, and relevant Central Bank of Nigeria circulars to the extent that these laws are not in conflict with the requirement of IFRS.

2.2 Basis of Measurement

These financial statements have been prepared on the historical cost basis except for the following:

- Non-derivative financial instruments, carried at fair value through profit or loss, are measured at fair value
- Available-for-sale financial assets are measured at fair value through equity. However, when the fair value of the Available-for-Sale financial assets cannot be measured reliably, they are measured at cost less impairment.
- The liability for defined benefit obligation is recognised as the present value of the defined obligation less the fair value of the plan assets.
- The plan assets for defined benefit obligations are measured at fair value
- Assets and Liabilities held for trading are measured at fair value
- Assets and Liabilities held to maturity are measured at amortised cost less impairment
- Loans and Receivables are measured at amortised cost less impairment.

2.3 Judgment, Estimates and Assumptions

The preparation of financial statements requires directors to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses.

These estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances.

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES - cont'd

The results of which forms the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions and conditions.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised, if their revision affects only that period or if there revision affects both current and future periods.

2.3.1 Critical Accounting Judgments and Estimates

Critical accounting estimates are those which involve the most complex or subjective judgments or assessments, and relate to general insurance reserves, the determination of fair value for financial assets and liabilities, impairment charges, the determination of fair values of assets and liabilities attributable to business combinations, deferred policy acquisition costs and deferred taxes.

In each case, the determination of these items requires management to make informed judgments based on information and financial data that may change in future periods. Because of the uncertainties involved in such judgments, actual outcomes and results may differ from assumptions and estimates made by management.

a) Fair value of financial assets and liabilities

All financial assets and liabilities are recorded initially at fair value. Subsequently, quoted equity financial assets, financial assets and liabilities at fair value through profit or loss are carried at fair value, as of the reporting date. All other financial instruments are carried at amortized cost, with their fair values disclosed.

b) Fair value of unquoted equity financial instruments

The fair values of financial instruments where no active market exists or where quoted prices are not otherwise available are determined by using valuation techniques. In these cases, the fair values are estimated from observable data using valuation models. The models used to determine fair values are validated and periodically reviewed by qualified personnel independent of those that sourced them. All models are certified before they are used, and models are calibrated to ensure that outputs reflect actual data and comparative market prices. Changes in assumptions about these factors could affect the reported fair value of the relevant securities.

c) Fair value of HTM investment securities

Financial instrument designated as held-to-maturity are carried by the group at amortized cost.

The quoted prices for the determination of the fair of such instruments are readily available for quoted instruments. Valuation techniques are used for unquoted instruments by using discount cash flow valuation techniques. In the latter cases, the fair values are estimated from observable data in respect of similar financial instruments.

d) Liabilities arising from Insurance Contract:

i) Claims arising from non-life insurance contracts

Liabilities for unpaid claims are estimated on a case by case basis. The liabilities recognized for claims fluctuate based on the nature and severity of the claim reported. Claims incurred but not reported (IBNR) are determined using statistical analyses which arise from the claims development tables in respect of not less than five (5) years' experience. The Group deems liabilities reported as being adequate since such liabilities have been subjected to the liability adequacy test by certified actuary.

ii) Unexpired risk and unearned premium

In determining unearned premium, the policy is taken to be evenly spread across the period of cover for all policies except engineering policies where policies are skewed towards the later policy coverage period.

e) Impairment of Trade Receivables

In accordance with the accounting policies on financial assets, the Group tests annually whether trade receivable has suffered any impairment. In respect of premium receivables, the group makes allowances for amounts not collected as at time of preparing its financials. The carrying amount of loans and receivables is reduced through an impairment allowance determined using an analytical method based on knowledge of each loan group or receivable.

f) Deferred Acquisition Costs

Deferred Acquisition Costs (DAC) generally consist of commissions, underwriting expenses and policy issuance costs. The amount of acquisition costs to be deferred is dependent on judgments as to which issuance costs are directly related to and vary with the acquisition.

The related asset is amortized over the premium earning pattern for non-life.

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES - cont'd

Those direct and indirect costs incurred during the financial year arising from the writing or renewing of insurance contracts and all other acquisition costs are recognized as an expense when incurred.

DAC for general insurance are amortized over the period in which the related revenues are earned. The reinsurers' share of Deferred Acquisition Costs is amortized in the same manner as the underlying asset amortization is recorded in the statement of comprehensive income.

Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for by changing the amortization period and are treated as a change in an accounting estimate under as required by IAS 8.

An impairment review is performed at each reporting date or more frequently when an indication of impairment arises. When the recoverable amount is less than the carrying value, an impairment loss is recognized in the statement of comprehensive income. DAC are also considered in the liability adequacy test for each reporting period.

DAC are derecognized when the related contracts are either settled or disposed off.

g) **Deferred taxes**

Deferred income tax liabilities are recorded for temporary differences, which are based on the difference between financial statement carrying amounts and income tax bases of assets using enacted income tax rates and laws.

The utilization of deferred tax assets arising from temporary differences depends on the generation of sufficient taxable profits in the period in which the underlying asset or liability is recovered or settled.

(h) **Regulation**

The Group is regulated in Nigeria by the National Insurance Commission (NAICOM) under the National Insurance Act of Nigeria. The Act specifies certain provisions which have impact on financial reporting as follows:

- i) section 21 (1) requires maintenance of contingency reserves at specified rates as set out under note 3.28 to cover fluctuations in securities and variation in statistical estimates;

- ii) section 10(3) requires insurance companies in Nigeria to deposit 10 percent of the minimum paid up share capital with the Central Bank of Nigeria.
- iii) section 25 (1) requires an insurance company operating in Nigeria to invest and hold investments in Nigeria assets equivalent to not less than the amount of policy holders' funds in such accounts of the insurer. Note 17 sets out assets allocation that covers policy holders' funds.
- iv) the requirement to provide 10 percent for outstanding claims in respect of claims incurred but not reported at the end of the year under review under section 20 (1b). However, claims incurred but not reported liabilities have been estimated in line with accounting policy 3.17 to comply with IFRS.

Section 59 of the Financial Reporting Council of Nigeria Act, (FRCN Act) provides that in matters of financial reporting, if there is any inconsistency between the FRCN Act and other Acts which are listed in section 59(1) of the FRCN Act, the FRCN Act shall prevail. The Financial Reporting Council of Nigeria acting under the provisions of the FRCN Act has promulgated IFRS as the national financial reporting framework of Nigeria. Consequently, the provisions of section 20(1b) of the National Insurance Act, which conflict with the provisions of IFRS have not been adopted:

- a) The requirement to provide 10 per cent for outstanding claims in respect of claims incurred but not reported (IBNR) at the end of the year under review under section 20 (1b);

3.0 **Significant Accounting Policies**

Significant accounting policies are defined as those that are reflective of significant judgments and uncertainties, and potentially give rise to different results under different assumptions and conditions.

The accounting policies set out below have been consistently applied to all periods presented in these financial statements.

These policies have been consistently applied to all years presented unless otherwise stated.

3.1.1 **Basis Of Consolidation**

3.1.1 **Subsidiaries**

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES - cont'd

date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The Group applies the acquisition method to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. The Group recognises any non-controlling interest in the acquiree on an acquisition-by-acquisition basis, either at fair value or at the non-controlling interests proportionate share of the recognised amounts of acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is re-measured to fair value at the acquisition date; any gains or losses arising from such re-measurement are recognised in profit or loss.

Any contingent consideration to be transferred by the Group is recognised at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration that is deemed to be an asset or liability is recognised in accordance with IAS 39 either in profit or loss or as a change to other comprehensive income. Contingent consideration that is classified as equity is not re-measured, and its subsequent settlement is accounted for within equity.

Inter-company transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated. When necessary, amounts reported by subsidiaries have been adjusted to conform to the Group's accounting policies.

3.1.2 Changes in ownership interests in subsidiaries without change of control

Transactions with non-controlling interests that do not result in loss of control are accounted for as equity transactions - that is, as transactions with the owners in their capacity as owners. The difference between fair value of any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity. Gains or Losses on disposals to non-controlling interests are also recorded in equity.

When the group ceases to have control any retained interest in the entity is remeasured to its fair value at the date when control is lost, with the change in carrying amount recognised in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

3.2. Foreign Currency Translation

The Nigerian Naira is the Group's functional and reporting currency. Foreign currency transactions are translated at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated using the exchange rate ruling at the reporting sheet date; the resulting foreign exchange gain or loss is recognized in profit or loss. Unrealized exchange differences on non-monetary financial assets (investments in equity instruments) are a component of the change in their entire fair value and are recognised in equity (translation reserve). For a non-monetary financial asset held for trading or designated at fair value through profit or loss, unrealized exchange differences are recognized in profit or loss. For non-monetary financial investments available-for-sale, unrealized exchange differences are recorded in other comprehensive income and transfer to equity when the asset is sold or becomes impaired.

3.3 Cash and Cash Equivalents

Cash and cash equivalents comprise cash in hand, demand deposits with banks and other short-term highly liquid investments that are readily convertible into cash and are subject to an insignificant risk of change in fair value. The deposits have original maturities of three months or less from the acquisition date.

3.4 FINANCIAL ASSETS

The Group classifies its financial assets into the following categories: at fair value through profit and loss, loans and receivables, held to maturity and available for sale. The classification is determined by management at initial recognition and depends on the purpose for which the investments were acquired.

3.4.1 Classification

- (a) Financial assets at fair value through profit and loss are classified as follows:
 - i) Investment securities held for trading; and
 - ii) Those designated at fair value through profit and loss at inception.

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES - cont'd

A financial asset is classified into the "financial assets at fair value through profit and loss" category at inception if acquired principally for the purpose of selling in the short term, if it forms part of a portfolio of financial assets in which there is evidence of short-term profit-taking, or if so designated by management.

Financial assets designated as at fair value through profit or loss at inception are those that are held in internal funds to match insurance and investment contracts liabilities that are linked to the changes in fair value of these assets. The designation of these assets to be at fair value through profit and loss eliminates or significantly reduces a measurement or recognition inconsistency (sometimes referred to as "an accounting mismatch") that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases; and whose performance is evaluated and managed on a fair value basis.

(b) Available for sale

Available-for-sale investments are financial assets that are intended to be held for an indefinite period of time, which may be sold in response to needs for liquidity or changes in interest rates, exchange rates or equity prices or that are not classified as Loans and Receivables, Held-to-maturity investments or Financial Assets at fair value through profit and loss.

(c) Held-to-maturity investment securities

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Group's management has the positive intention and ability to hold to maturity, other than:

- i) Those that the Group upon initial recognition designates as at fair value through profit or loss;
- ii) Those that the Group designates as available for sale; and
- iii) Those that meet the definition of loans and receivables

Interest on held-to-maturity investments are included in the statement of profit or loss and are reported as "Investment income". In the case of impairment, it is been reported as a deduction from the carrying value of the investment and recognised in the income statement as "impairment charge for credit losses" within operating expenses. Held-to-maturity investments comprise of Government bonds, Treasury bills and other deposit with original maturity day greater than 90 days. These are initially recognised at fair value

(d) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market other than those that the Group intends to sell in the short term or that it has designated as at fair value through profit and loss or available for sale. Receivables arising from insurance contracts are also classified in this category and are reviewed for impairment as part of the impairment review of loans and receivables. Those for which the holder may not recover substantially all of its initial investment, other than because of credit deterioration.

Loans and receivables are initially recognised at fair value - which is the cash consideration to originate or purchase the loan including any transaction costs - and measured subsequently at amortised cost using the effective interest rate method. Loans and receivables are reported in the statement of financial position as loans and advances to customers or as investment securities. Interest on loans is included in the income statement and is reported as "Interest income". In the case of impairment, the impairment loss is reported as a deduction from the carrying value of the loan and recognised in the income statement as "impairment charge for credit losses" within operating expenses.

Loan granted to staff at below market rate are fair valued by reference to expected future cashflows and current market interest rates for instruments in a comparable or similar risk class and the difference between the historical cost and fair value is accounted for as employee benefits under staff costs where these are considered material.

Receivables arising out of Insurance arrangements are also classified in this category and reviewed for impairment in line with IAS 39. Receivables in the financial statement are disclosed as trade receivables, reinsurance receivables and other receivables.

Trade receivables

Trade, reinsurance and other receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial recognition these are measured at amortised cost using the effective interest method, less provision for impairment. Discounting is omitted where the effect of discounting is immaterial.

Individually significant receivables are considered for impairment when they are past due or when other objective evidence is received that a specific counterparty

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES - cont'd

will default. Trade receivables arising from insurance contracts are stated after deducting allowance made for specific debts considered doubtful of recovery. Impairment of trade receivables are presented within other operating expenses.

Trade and Other receivables amounts are short-term. The net carrying value of trade receivables is considered a reasonable approximation of fair value. Trade receivables are reviewed at every reporting period for impairment.

3.4.2 Recognition and measurement

Financial assets are initially recognised at fair value plus, in the case of all financial assets not carried at fair value through profit and loss, transaction costs that are directly attributable to their acquisition. Financial assets carried at fair value through profit and loss are initially recognised at fair value, and transaction costs are expensed in the statement of comprehensive income. Financial assets are derecognised when the rights to receive cash flows from them have expired or where they have been transferred and the Group has also transferred substantially all risks and rewards of ownership.

Available-for-sale financial assets and financial assets at fair value through profit and loss are subsequently carried at fair value. Loans and receivables and held-to-maturity financial assets are carried at amortised cost using the effective interest method.

Gains and losses arising from changes in the fair value of the "financial assets at fair value through profit and loss" category are included in the income statement in the period in which they arise. Dividend income from financial assets at fair value through profit and loss is recognised in the statement of comprehensive income as part of Investment income when the Group's right to receive payments is established.

Changes in the fair value of monetary and non-monetary securities classified as available for sale are recognised in other comprehensive income.

When securities classified as available for sale are sold or impaired, the accumulated fair value adjustments recognised in equity are included in the income statement as net realised gains on financial assets within Investment income.

Interest on available-for-sale securities calculated using the effective interest method is recognised in the income statement. Dividends on available-for-sale equity instruments are recognised in the income statement when the Group's right to receive payments is established. Both are included in the investment income line.

3.4.3 Determination of fair value

For financial instruments traded in active markets, the determination of fair values of financial assets and financial liabilities is based on quoted market prices or dealer price quotations. This includes listed equity securities and quoted debt instruments on major exchanges. The quoted market price used for financial assets held by the Group is the current bid price.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry, company, pricing service or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. If the above criteria are not met, the market is regarded as being inactive. Indications that a market is inactive are when there is a wide bid - offer spread or significant increase in the bid - offer spread or there are few recent transactions.

For all other financial instruments, fair value is determined using valuation techniques. In these techniques, fair values are estimated from observable data in respect of similar financial instruments, using models to estimate the present value of expected future cash flows or other valuation techniques, using inputs (for example, NIBOR, MPR etc.) existing at the dates of the statement of financial position.

The Group uses widely recognised money market rates in determining fair values of non-standardised financial instruments of lower complexity like placements, and treasury bills. These financial instruments models are generally market observable. The carrying value less impairment provision of trade receivables and payables are assumed to approximate their fair values.

The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments. In cases where the fair value of unlisted equity instruments cannot be determined reliably, the instruments are carried at cost less any impairment.

The fair value for loans and receivables as well as liabilities to banks and customers are determined using a present value model on the basis of contractually agreed cash flows, taking into account credit quality, liquidity and costs. The fair values of contingent liabilities and irrevocable loan commitments correspond to their carrying amounts.

3.4.4 De-recognition of financial instruments

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES - cont'd

If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

3.4.5 Reclassification of financial assets

Financial assets other than loans and receivables are permitted to be reclassified out of the held-for-trading category only in rare circumstances arising from a single event that is unusual and highly unlikely to recur in the near-term. In addition, the Group may choose to reclassify financial assets that would meet the definition of loans and receivables out of the held-for-trading or available-for-sale categories if the Group has the intention and ability to hold these financial assets for the foreseeable future or until maturity at the date of reclassification.

Reclassifications are made at fair value as of the reclassification date. Fair value becomes the new cost or amortised cost as applicable, and no reversals of fair value gains or losses recorded before reclassification date are subsequently made. Effective interest rates for financial assets reclassified to loans and receivables and held-to-maturity categories are determined at the reclassification date. Further increases in estimates of cash flows adjust effective interest rates prospectively.

3.4.6 Impairment of Financial Assets

The group assesses as each reporting date whether there is objective evidence that a financial asset or group of financial assets is impaired. Objective evidence of impairment exists if one or more loss events occurred after the initial recognition of the asset which impacts the estimated future cash flows such as:

Significant financial difficulty of the issuer or debtor;

- A breach of contract, such as a default or delinquency in payments;
- It becomes probable that the issuer or debtor will enter bankruptcy or other financial reorganization;
- The disappearance of an active market for that financial asset because of financial difficulties; or
- Observable data indicating a measurable decrease in the estimated future cash flows from a group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in that group.

In addition, for an available-for-sale financial asset, a significant or prolonged decline in the fair value of below its cost is also considered objective evidence of impairment.

While the determination of what is significant or prolonged is a matter of judgments. In respect of equity securities that are quoted, the group is guided by the following:

- a decline in excess of 20% is generally regarded as significant; and
- a decline in quoted price that persists for nine months is considered to be prolonged.

The recoverable amount of an asset or cash generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

3.4.6a Financial Assets Carried At Amortised Cost

For financial assets measured at amortized cost, the company first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant and individually or collectively for financial assets that are not individually significant. Individually significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics. An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying value and the present value of the estimated future cash flows discounted at the original effective interest rate. Objective evidence of impairment exists if it is probable that the group will not be able to collect principal and/or interest due according to the contractual terms of the instrument. Impairment is the product of the loss given default rate and the gross value of each trade receivables.

3.4.6b Available-for-sale Financial Assets

When there is objective evidence that an available-for-sale financial asset is impaired, the cumulative loss that had been recognized directly in OCI is recognized in income as an impairment loss. The impairment loss is the difference between the acquisition cost and the current fair value, less any impairment loss on that security previously recognized in income.

If the fair value of a security increases in a subsequent period, and the increase can be objectively related to an event occurring after the impairment loss was recognized in income, the impairment loss is reversed through income, up to the amount of the previously recognized impairment loss, as adjusted for any amortization already recognized in income. Any further gains are recognized directly in OCI. Any subsequent losses, to the extent that they do not represent further impairment losses, are also recognized in OCI.

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES - cont'd

Objective evidence of impairment exists for an available-for-sale equity security when its fair value is below the weighted-average cost by a significant amount.

Impairment thresholds are determined quarterly on the basis of the underlying price volatility of securities within the equity market in which the group invests which is basically The Nigerian Exchange Limited. Additionally, the group considers an equity security to be impaired when its fair value has been below the weighted-average cost for a prolonged period of 24 consecutive months or longer.

3.4.7 Trade Receivable

Trade receivables on insurance contract include amount due from agents, brokers, and co-insurance and insurance contract holders.

The Company adopts the 'No Premium, No Cover' policy in respect of Insurance Contract. Insurance covers are only granted on receipt of full premium in advance or full premium notification (credit note) from a licensed Insurance Broker. Full premium notification (credit note) shall subsist for a period of 30 days.

Any premium not received, in respect of premium notification, after 30 days is fully impaired and the cover cancelled. Hence no impairment was recognized.

3.4.8 Offsetting Financial Assets and Financial Liabilities

Financial assets and financial liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or to settle the asset and settle the liability simultaneously.

3.5 Reinsurance contracts

Contracts entered into with reinsurers under which the Group is compensated for losses on one or more long-term policy contracts issued by the Group and that meet the classification requirements for insurance contracts are classified as long-term reinsurance contracts. The expected claims and benefits to which the Group is entitled under these contracts are recognised as assets where material.

If there is objective evidence that the reinsurance asset is impaired, the carrying amount is reduced to a recoverable amount, and the impairment loss is recognised in the statement of comprehensive income.

3.5.1 Reinsurance asset

Reinsurance assets consist of short-term balances due from reinsurers, as well as longer term receivables that are dependent on the expected claims and benefits arising under the related reinsured insurance contracts. Amounts

recoverable from or due to reinsurers are measured consistently with the amounts associated with the reinsured insurance contracts and with the terms of each reinsurance contract.

The reinsurance asset is reviewed quarterly for impairment. Where there is objective evidence that the insurance asset is impaired, the Group reduces the carrying amount of the insurance asset to its recoverable amount and recognises that impairment loss in the statement of comprehensive income. Evidence that the reinsurance asset is impaired is gathered where the reinsurance Group has refused payment of any balance.

3.5.2 Reinsurance liabilities

Liabilities are valued gross before taking into account reinsurance. Reinsurance liabilities are primarily premiums payable for reinsurance contracts and are recognised as an expense when due.

3.6 Deferred Acquisition Costs (DAC)

Acquisition costs comprise all direct and indirect costs arising from the writing of insurance contracts (life and non-life contracts). Deferred acquisition costs represent a proportion of commission which are incurred during a financial year and are deferred to the extent that they are recoverable out of future revenue margins. It is calculated by applying to the acquisition expenses the ratio of unearned premium to written premium.

Commissions and other acquisition costs that vary with and are related to securing new contracts and renewing existing contracts are capitalised as an intangible asset. All other costs are recognised as expenses when incurred. The DAC is subsequently amortised over the life of the contracts as follows:

For short-duration life insurance contracts, deferred acquisition cost is amortised over the terms of the policies as premium is earned.

For long-term insurance contracts with fixed and guaranteed terms, deferred acquisition cost is amortised in line with premium revenue using assumptions consistent with those used in calculating future policy benefit liabilities; and

For long-term insurance contracts without fixed terms and investment contracts, deferred acquisition cost is amortised over the expected total life of the contract Group as a constant percentage of estimated gross profit margins (including investment income) arising from these contracts. The resulting change to the carrying value of the DAC is charged to statement of comprehensive income.

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES - cont'd

3.7 Other Receivables and Prepayments

Other receivable and prepayment are stated after deductions of amount considered impairment losses. These are loans and receivables other than investment securities, insurance trade receivables and reinsurance assets. When a debt is deemed not collectable, it is written off against the related impairment or directly to profit or loss account to the extent not previously provided for. Any subsequent recovery of written -off impairment is credited to profit or loss.

Prepayments represent prepaid expenses and are carried at cost less amortisation expenses in profit or loss.

3.8 Inventory

Inventories are stock of tracker devices used to track down vehicles that are held for sale in the ordinary course of business of the group. They are initially recognized at cost. The cost comprises of actual purchase price and cost of freight.

The Group uses First In First Out (FIFO) method for valuation purpose.

3.8.1 Measurement

In line with IAS 2, the group has elected to measure inventories at the lower of cost and net realizable value.

3.9 Intangible Assets

3.9.1 Goodwill

Goodwill is measure at cost less recognised impairment. Goodwill arises on the acquisition of a subsidiary company or the acquisition of a business. It represents the excess of the cost of an acquisition over the Group's share of the fair value of the identifiable net assets of the subsidiary or business at the date of acquisition. Goodwill is not amortised. But tested annually for impairment.

The gain or loss on the disposal of a subsidiary or business includes the carrying amount of goodwill attribute to the entity or business sold.

Goodwill is not recognised when an interest in an existing subsidiary is increased. The difference between the cost of the acquisition and the minority interest acquired is accounted for directly in equity. When an interest in an existing subsidiary is decreased without a loss of control, the difference between the proceeds received and the share of the net assets disposed of, including an appropriate portion of the related goodwill is accounted for directly in equity.

For impairment purposes, the carrying amount of goodwill is allocated to Cash Generating Units (CGU), reviewed annually for impairment and written down where this is

considered necessary. The carrying value of the CGU containing the goodwill is compared to the recoverable amount, which is the higher of value in use and the fair value less costs of disposal. Any impairment is recognised immediately as an expense in the statement of comprehensive income and is not subsequently reversed.

Goodwill in respect of Associates and Joint ventures is included in the carrying amount of investments in associates and joint ventures. For impairment purposes each investment is tested for impairment individually and goodwill is not tested separately from the investment in associates and joint ventures, nor is any impairment allocated to any underlying assets.

3.9.2 Purchased and Developed Computer Software

The Group recognises computer software acquired as intangible asset.

Software acquired by the Group is stated at cost less accumulated amortisation and accumulated impairment losses. Acquired intangible assets are recognised at cost on acquisition date and are to be amortised for the period of five years using straight-line method.

Subsequent to initial recognition, these assets are carried at cost less accumulated amortization and impairment losses in value, where appropriate.

Subsequent expenditure on software assets is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is expensed as incurred.

Amortisation is recognised in the statement of profit or loss and other comprehensive income on a straight-line basis over the estimated useful life of the software, from the date that it is available for use since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. Cost of Computer software recognized as assets are amortized over their estimated useful lives not exceeding 5 years. Amortisation methods and useful lives are reviewed at each financial year-end and adjusted if appropriate.

Intangible assets are derecognised at disposal date or at the date when it is permanently withdrawn from use without the ability to be disposed of. The differences between the carrying amounts at the date of de-recognition and any disposal proceeds, as applicable, is recognised in the statement of comprehensive income.

Expenditure on internally developed software is recognised as an asset when the Group is able to demonstrate its intention and ability to complete the development and use the software in a manner that will

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES - cont'd

generate future economic benefits and can reliably measure the costs to complete the development. The capitalised cost of internally developed software include all cost directly attributable to developing the software and capitalised borrowing costs, and are amortised over its useful life. Internally developed software is stated at capitalised cost less accumulated amortisation and impairment.

However, the Group does not have internally developed software at the date of reporting.

3.9.3 Trademarks and licenses

No value is attributed to internally developed trademarks, patents and similar rights. Costs incurred on in renew its operating licenses annually with both NICOM and CBN are recognized in profit or loss as incurred. Expenditure on the development and marketing of the Group's brands is also recognized in profit or loss as incurred.

3.10 Property, Plant and Equipment

Recognition and measurement

Own use property is defined as property plant and equipment held by the group for use in the supply of services or for administrative purposes. Land and buildings comprise mainly outlets and offices occupied by the Group.

All other Property, Plant and equipment, are initially recognized at cost and subsequently measured or carried at cost less accumulated depreciation and any accumulated impairment loss.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. Maintenance and repair costs are charged to statement of profit or loss as incurred.

Property and equipment are derecognised at disposal date or at the date when it is permanently withdrawn from use without the ability to be disposed of. The differences between the carrying amounts at the date of de-recognition and any disposal proceeds, as applicable, is recognised in 'other income' in the statement of profit or loss.

If the expected residual value is equal to or greater than the carrying value, no depreciation is provided for. The residual values, estimated useful lives of the assets and depreciation methods are reviewed at each statement of financial position date and adjusted as appropriate.

Depreciation:

Depreciation is recognized so as to write off the cost or valuation of assets (other than freehold land) less their residual values over their useful lives. These assets are depreciated usually on a straight-line basis to statement of profit or loss over the following estimated useful lives:

- Motor vehicles - 4 years
- Furniture and fixtures - 5 years
- Office equipment - 5 years
- Plant and machinery - 5 years
- Library Books - 5 years
- Building - 20-50 years
- Leasehold Land - Not depreciated

Assets that are subject to depreciation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the carrying value of the asset exceeds its expected recoverable amount. The recoverable amount is the higher of fair value less costs to sell and value-in-use. Assets are grouped on cash generating unit (CGU) level if the recoverable amount cannot be separately determined.

De-recognition

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in profit or loss.

3.11 Assets Held for Sale

Non-current assets held for sale and discontinued operations

Non-current assets (and disposal groups) classified as held for sale are measured at the lower of carrying amount and fair value less costs to sell.

Non-current assets and disposal groups are classified as held for sale if their carrying amount will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition. Management must be committed to the sale which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Impairment losses on initial classification as held for sale and subsequent gains or losses on measurement are recognized in profit or loss. Gains are not recognized in excess of any cumulative impairment loss

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES - cont'd

In the statement of comprehensive income of the reporting period, and of the comparable period, income and expenses from discontinued operations are reported separately from income and expenses from continuing operations, down to the level of profit after taxes. In the statement of financial position, non-current assets held for sale are usually separately identified.

Property, plant and equipment and intangible assets once classified as held for sale are not depreciated or amortized. However, the decision to sell and actual sales take place within the year.

3.12. Investment properties

Investment property comprises investment in land or buildings held primarily to earn rentals or capital appreciation or both (Including property under construction for such purposes).

Investment property is measured initially at its cost, including transaction costs. The cost of a purchased investment property comprises its purchase price and any directly attributable expenditure. Directly attributable expenditure includes, for example, professional fees for legal services, property transfer taxes and other transaction costs.

Investment property is subsequently measured at fair value. The fair value is determined annually by independent valuation experts on the highest and best-use basis. Gains or losses arising from changes in the fair values of investment properties are included in the profit or loss as "Fair value gains/loss on investment properties" in the year in which they arise.

Property located on land that is held under an operating lease is classified as investment property as long as it is held for long-term rental yields. The initial cost of the property is the lower of the fair value of the property and the present value of the minimum lease payments. The property is carried at fair value after initial recognition. If an item of property, plant and equipment becomes an investment property because its use has changed, any difference arising between the carrying amount and the fair value of this item at the date of transfer is recognised in revaluation reserves. Investment properties are derecognised either when they have been disposed of, or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses together with exchange gain or losses on the retirement or disposal of an investment property are recognised in the other comprehensive income as a revaluation of property, plant and equipment. However, if a fair value gain reverses a previous impairment loss, the gain is recognised in profit or loss. Upon the disposal of such investment property, any

surplus previously recorded in equity is transferred to retained earnings; the transfer is not made through profit or loss

3.13 Lease

Leases are divided into finance and operation lease. The determination of whether an arrangement is a lease contains a lease, is based on the substance of the arrangement at the inception date and requires an assessment of whether the fulfillment of the arrangement is dependent on the uses of a specific asset or assets and the arrangement conveys a right to use the asset, even if that right is not explicitly specified in an arrangement.

(i) Operating lease

Leases in which a significant portion of the risks and rewards of ownership are retained by another party, the lessor, are classified as operating leases. Payments, including prepayments, made under operating leases (net of any incentives received from the lessor) are charged to the income statement on a straight-line basis over the period of the lease. When an operating lease is terminated before the lease period has expired, any payment required to be made to the lessor by way of penalty is recognised as an expense in the period in which termination takes place.

(ii) Finance lease

Leases of assets where the company has substantially all the risks and rewards of ownership are classified as finance leases.

Finance leases are capitalised at the lease's commencement at the lower of the fair value of the leased property and the present value of the minimum lease payments. Each lease payment is allocated between the liability and finance charges so as to achieve a constant rate on the finance balance outstanding. The corresponding rental obligations, net of finance charges, are included in deposits from banks or deposits from customers depending on the counter party. The interest element of the finance cost is charged to the income statement over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

(b) The Group is the lessor

(i) Operating lease

When assets are subject to an operating lease, the assets continue to be recognised as property and equipment based on the nature of the asset. Lease income is recognised on a straight line basis.

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES - cont'd

(ii) Finance lease

When assets are held subject to a finance lease, the related asset is derecognised and the present value of the lease payments (discounted at the interest rate implicit in the lease) is recognised as a receivable. The difference between the gross receivable and the present value of the receivable is recognised as unearned finance income. Lease income is recognised over the term of the lease using the net investment method (before tax), which reflects constant periodic rate of return.

The subsidiary Ric Properties and Investment Limited engaged in finance lease.

Classification	Provision requirement	Basis
Performing	1%	Interest / Principal not due
Pass and Watch	5%	Interest / Principal over due by 1 day but less than 30 days
Substandard	20%	Interest / Principal over due by 31 days but less than 60 days
Doubtful	50%	Interest / Principal over due by 61 days but less than 90 days
Lost	100%	Interest / Principal over due by 91 days and above

3.14 Impairment of Other Non-Financial Assets

Assets that have an indefinite useful life-for example, land are not subject to amortization and are tested annually for impairment. Assets that are subject to amortization are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (Cash Generating Units).

A more accelerated provision may be done using the subjective criteria. A 1% provision is taken on all risk assets are not specifically provisioned. The results of the application of Prudential Guidelines and the impairment determined for these assets under IAS 39 are compared. The IAS 39 determined impairment charge is always included in the statement of profit or loss. Where the Prudential Guidelines provision is greater, the difference is appropriated from Retained Earnings and included in a non-distributable reserve "Statutory credit reserve". Where the IAS 39 impairment is greater, no appropriation is made and the amount of the IAS 39 impairment is recognised in Income Statement.

3.15 Statutory Deposit

3.15.1 Statutory Deposit (Insurance)

These deposits represent bank balances required by the insurance regulators of the Group to be placed with relevant Central Banks of the Group's operating jurisdictions. The deposits are not available for day to day use and are stated at amortised cost.

3.15.2 Statutory Reserves (Microfinance Bank)

Central Bank of Nigeria requires all Microfinance Banks to make an annual appropriation to a statutory reserve. As stipulated in Section 18.1.7 of the revised regulatory and supervisory guidelines for Microfinance banks in Nigeria.

- An appropriation of 50% of profit after tax is made if the statutory reserve is less than the paid-up share capital,
- 25% of profit after tax if the reserve is 50% or more and greater than the paid-up share capital.

3.15.3 Statutory Credit Reserve.

In compliance with the Prudential Guidelines for licensed Microfinance Institutions, the microfinance bank assesses qualifying financial assets using the guidance under the Prudential Guidelines. The guidelines apply objective and subjective criteria towards providing for losses in risk assets. Risk assets are classed with attendants provision as per the table below based on objective criteria.

3.15.4 Collateral

The microfinance bank obtains collateral where appropriate, from customers to manage their credit risk exposure to the customer. The collateral normally takes the form of a lien over the customer's assets and gives the company a claim on these assets for both existing and future customer in the event that the customer defaults.

Collateral received in the form of securities is not recorded on the statement of financial position. Collateral received in the form of cash is recorded on the statement of financial position with a corresponding liability. These items are assigned to deposits received from bank or other counterparties. Any interest payable or receivable arising is recorded as interest expense or interest income respectively.

3.16. NON-Life Insurance Contract Liabilities

a). Technical Reserves

These are the reserves computed in compliance with the provision of Section 20, 21, and 22 of the Insurance Act 2003. They are:

b). General insurance contracts

Reserves for unearned premium In compliance with Section 20 (1) (a) of Insurance Act 2003, the reserve for

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES - cont'd

unearned premium is calculated on a time apportionment basis in respect of the risks accepted during the year.

c). Reserves for unexpired risk

The provision for unearned premiums represents that part of written premiums, gross of commission payable to intermediaries that is estimated to be earned in subsequent periods. The change in the provision is recorded in the income statement to recognize revenue over the period of the risk.

A provision for Additional Unexpired Risk Reserve (AURR) is recognized for an underwriting year where it is envisaged that the estimated cost of claims and expenses would exceed the Unearned Premium Reserve (UPR).

d). Reserves for outstanding claims

The reserve for outstanding claims is maintained at the total amount of outstanding claims incurred and reported plus claims incurred but not reported ("IBNR") as at the reporting date. The IBNR is based on the liability adequacy test.

Material salvage and other recoveries including reinsurance recoveries are presented as assets.

In many cases delays experienced in the notification and settlement of certain types of general insurance claims result in the ultimate cost varying from the original assessment. Adjustments to the amounts of claims provisions established in prior years are reflected in the financial statements for the period in which the adjustments are made and disclosed separately, if material.

The liability for Incurred but not Reported (IBNR) claims is calculated at the end of the reporting period, using a range of standard actuarial claim projection techniques, based on empirical data and current assumptions that may include a margin for adverse deviation. The liability was not discounted for time value of money; and no further provision was made for equalization or catastrophe reserves (as prohibited by IFRS 4).

3.17 Liability Adequacy Test

At the end of each reporting date, a Liability Adequacy Test (LAT) is performed by an Actuary to ensure the adequacy of the contract liabilities net of any related Deferred Acquisition Cost and Reinsurance recoveries. Where a shortfall is identified, an additional provision is made and the company recognizes the deficiency in profit or loss.

3.18 Liabilities and Related Assets under Liability Adequacy Test

The net liability for insurance contracts is tested for adequacy by discounting current estimates of all future contractual cash flows and comparing this amount to the carrying value of the liability net of deferred acquisition costs. Where a shortfall is identified, an additional provision is made and the company recognizes the deficiency in the statement of profit or loss and other comprehensive income for the year.

Incurred but Not Reported (IBNR) claim reserves were determined by projecting Ultimate Claims using Chain Ladder method and then deducting for claims paid to date and outstanding amounts on reported claims. The paid claims development factors are adjusted, where felt necessary due to data limitations and credibility issues. Loss Ratio method is used where use of Chain Ladder method was not appropriate or possible.

Unearned Premium Reserve (UPR), for all policies except Engineering, is determined by apportioning the premium over the duration of policy and calculating UPR based on premium in respect of remaining term of the policy. However, for engineering policies, policies at risk amounts are skewed towards the later policy coverage period. Hence UPR determination is based on a different approach which results in higher premium being earned at later stages of the policy.

3.19 Borrowings

Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognized in the income statement over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognized as transaction cost of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs.

To the extent there is no evidence that it's probable that some or all of the facility will be drawn down, the fees capitalised as a prepayment for liquidity service and amortised over the period of the facility to which it related.

Borrowings are classified as non-current liabilities under where the group has an unconditional right to defer settlement for at least 12 months after the date of the statement of financial position.

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES - cont'd

3.20 Trade Payables

Trade payables are recognised initially at fair value and subsequently measure at amortised cost using effective interest method. The value of a non-interest bearing liability is its discounted repayment amount. If the effect of discounting is immaterial, discounting is omitted.

3.21 Provisions, Contingent Liabilities, Commitments and Financial Guarantees

Provisions, contingent liabilities, commitments and financial guarantees are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is more likely than not that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of such an obligation. Provisions are discounted when the effect of the time value of money is considered material.

Restructuring provisions comprise employee termination costs and costs related to onerous contracts. Restructuring provisions are recognized when the Group has a present obligation as a result of a detailed formal plan, which has been announced to those affected and the amount can be reasonably estimated.

3.22 Other payable

Other payable are initially recognised at fair value and subsequently measured at amortised cost.

3.23. Employee Benefits

a). Pension obligation

The Group operates a defined contributory pension scheme for eligible employees. Employees and the Group contribute 8.5% and 10.5% respectively of the qualifying staff's salary in line with the provision of Pension Reform Act 2014. Under the defined contributory scheme, the group pays fixed contributions to a separate entity - Pension Fund Administrators; employees also pay a fixed percentage to the same entity. Once the contributions have been paid, the company retains no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to finance benefits accruing under the retirement benefit plan.

The Company's obligations are recognized in the profit or loss as employee benefit expenses when they are due.

b). Short-term benefits

Short-term employee benefit obligations include wages, salaries and other benefits which the Company has a present obligation to pay, as a result

of employees' services provided up to the reporting sheet date. The accrual is calculated on an undiscounted basis, using current salary rates. A provision is recognized for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

c). Termination Benefits

Termination benefits are payable whenever an employee's employment is terminated before the normal retirement date or whenever an employee accepts voluntary redundancy in exchange for these benefits. The Company recognizes termination benefits when it is demonstrably committed either to terminate the employment of current employees according to a detailed formal plan without possibility of withdrawal, or to provide termination benefits as a result of an offer made to encourage voluntarily redundancy if it is probable that the offer will be accepted and the number of acceptances can be estimated. Benefits falling due more than 12 months after balance sheet date are discounted to present value.

3.24 Current and Deferred Income Tax

The Group provides current tax expense according to the tax laws of each jurisdiction in which it operates. Tax is recognized in the income statement, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

Deferred income taxes are recognized using the asset and liability method. Deferred income taxes are recorded for temporary differences, which are based on the difference between financial statement carrying amounts and income tax bases of assets and liabilities using enacted income tax rates and laws. Losses for tax purposes are treated as deferred tax assets to the extent it is probable that they can be utilized against future taxable income in the respective jurisdictions.

Current and deferred tax assets and liabilities are offset when the income taxes are levied by the same taxation authority and when there is a legally enforceable right to offset them.

Taxes payable by either the Parent Company or its subsidiaries on expected distributions to the Parent Company of the profits of subsidiaries are not recognized as deferred income taxes unless a distribution of those profits is intended in the foreseeable future.

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES - cont'd

3.24.1 Minimum Tax

Where the Group has no taxable profit or liability arising from its tax assessment for the year, a minimum tax assessment shall be mandatory in line with the provision of the Company Income Tax Act (as amended)

3.25 Equity

Share Capital

Ordinary shares are classified as equity. The company classifies ordinary shares and share premium as equity when there is no obligation to transfer cash or other assets. Incremental costs directly attributable to issue of shares are recognized as deductions from equity net of any tax effects.

Dividend on ordinary shares

Dividends on the Company's ordinary shares are recognised in equity in the period in which they are paid or, if earlier, approved by the company's shareholders.

Earnings per share

Basic earnings per share is calculated by dividing net income available to ordinary shareholders by the weighted average number of ordinary shares in issue during the year, excluding the weighted average number of ordinary shares purchased by the Group and held as Treasury shares.

Earnings per share has also been calculated on the adjusted operating profit before impairment of goodwill and other adjusting items, after tax, attributable to ordinary shareholders, as the directors believe this figure provides a better indication of operating performance.

For the diluted earnings per share, the weighted average number of ordinary shares in issue is adjusted to assume conversion of all dilutive potential ordinary shares, such as convertible debt and share options granted to employees. Potential or contingent share issuances are treated as dilutive when their conversion to shares would decrease net earnings per share.

3.26 Retained Earnings

Retained earnings are the amount of retained profit not apportioned to any specified reserve and which is available for distribution to shareholders. Retained earnings are carried at book value. This account accumulates net profits or losses from operations.

3.27 Fair Value and Other Reserves

Fair value reserve represents unrealized gains/losses resulted from the valuation of available-for-sale and held for trading financial assets based on current market prices and other reserves represent foreign exchange difference resulted from translation of foreign subsidiary operation at year end.

3.28 Contingency Reserve

The Company maintains contingency reserves in accordance with the provisions of the Section 21(2) of Insurance Act 2003 to cover fluctuations in securities and variations in statistical estimates at the rate equal to the higher of 3% of total premium or 20% of the net profit after until the reserve reaches the greater of minimum paid up capital or 50% of net premium for general business.

3.29 Insurance Contracts

The Group enters into insurance contracts as its primary business activities. Insurance contracts are those that the Group accepts significant insurance risk from another party (the policy holder) by agreeing to compensate the policy holder or other beneficiary, if a specified uncertain future event (the insured event) adversely affects the policy holder or the other beneficiary. The Group issues contracts that transfer insurance risk or financial risk or both. Insurance contracts are those contracts that transfer significant insurance risk.

3.30 Revenue Recognition

Revenue comprises the fair value for services, net of value-added tax. Revenue is recognised as follows

Non-life insurance

a) Premium

Gross premium comprise the premium on insurance contracts entered into during the year, irrespective of whether they relate in whole or in part to a later accounting period.

Premium on reinsurance inward are included in gross written premium and accounted for as if the reinsurance was considered direct business, taking into account the product classification of the reinsured business.

Outward reinsurance premium are accounted for in the same accounting period as the premium for the related direct insurance or reinsurance business assumed.

The earned portion of premium received is recognized as revenue. Premiums are earned from the date of attachment of risk, over the indemnity period, based on the pattern of risk underwritten. Outward reinsurance premiums are recognized as an expense in accordance with the pattern of indemnity received.

b) Unearned premium

Unearned premium are those proportions of premium written in the year that relate to periods of risks after the reporting date. It is computed

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES - cont'd

separately for each insurance contract using a time proportionate basis, or another suitable basis for uneven risk contracts. Provision for unexpired risk is made for unexpired risks arising where the expected value of claims and expenses attributable to the unexpired period of policies in force at the reporting date exceeds the unearned premium in relation to such policies after deduction of any deferred acquisition costs. Specifically, provision for unexpired risk is based on time apportionment.

c) **Gross premium Income**

This represents the earned portion of premium received and is recognised as revenue including changes in unearned premium. Premiums are earned from the date of attachment of risk, over the insurance period, based on the pattern of risk underwritten. Outward reinsurance premiums are recognised as expenses in accordance with the pattern of risk reinsured.

d) **Reinsurance**

The Group cedes reinsurance in the normal course of business for the purpose of limiting its net loss potential on policies written. Premium ceded comprise written premiums ceded to reinsurers, adjusted for the reinsurers' share of the movement in the provision for the unearned premiums.

Reinsurance arrangements do not relieve the company from its direct obligations to its policyholders. Premium ceded, claims reimbursed and commission recovered are presented in the statement of profit or loss and other comprehensive income and statement of financial position separately from the gross amounts.

Reinsurance assets represent balances due from reinsurance contracts. Reinsurance liabilities are primarily premiums payable for reinsurance contracts and are recognised as an expense when due.

Reinsurance recoverable is estimated in a manner consistent with the outstanding claims provision and claims incurred associated with the reinsurer's policies and are in accordance with the related insurance contract. They are measured at their carrying amount less impairment charges.

Amounts recoverable under reinsurance contracts are assessed for impairment at each statement of financial position date. If there is objective evidence of impairment, the company reduces the carrying amount of its insurance assets to its recoverable amount and recognizes the impairment loss in the

statement of profit or loss and other comprehensive income as a result of an event that occurred after its initial recognition, that the company may not recover all amounts due and that the event has a reliably measurable impact on the amounts that the company will receive from the reinsurer. The Group had the right to set-off re-insurance payables against the amount due from re-insurance and brokers in line with the agreed arrangement between both parties.

e) **Commission earned**

Commissions are recognised on ceding business to the re-insurer, and are credited to the profit or loss over the period the service is provided.

3.31 Expenses

a). **Claims**

Claims incurred consist of claims and claims handling expenses paid during the financial year together with the movement in the provision for outstanding claims. The provision for outstanding claims represent the group estimate of the ultimate cost of settling all claims incurred but unpaid at the statement of financial position date whether reported or not. The provision includes an allowance for claims management and handling expenses.

The provision for outstanding claims for reported claims is estimated based on current information and the ultimate liability may vary as a result of subsequent information and events and may result in significant adjustments to the amounts provided. Adjustments to the amounts of claims provision for prior years are reflected in the profit or loss in the financial period in which adjustments are made, and disclosed separately if material. The measurement of non-life insurance contract liabilities has been set out under note 3.14.

b) **Salvage and subrogation reimbursements**

Some insurance contracts permit the Group to sell property acquired in settling a claim (like salvage). Estimates of salvage recoveries are included as an allowance in the measurement of the insurance liability for claims. Salvage property is recognized as an asset when the liability is settled. The allowance is the amount that can reasonably be recovered from the disposal of the property.

The Group may also have the right to pursue third parties for payment of some or all costs (like subrogation). Subrogation reimbursements are also considered as an allowance in the measurement of the insurance liability for claims and are recognized

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES - cont'd

as assets when the liability is settled. The allowance is based on an assessment of the amount that can be recovered from the action against the liable third party.

c). Underwriting expenses

Underwriting expenses are made up of acquisition and maintenance expenses comprising commission and policy expenses, proportion of underwriting staff cost. Underwriting expenses for insurance contracts are recognized as an expense when incurred, with the exception of acquisition costs which are recognized on a time apportionment basis in respect of risk.

d). Receivables and payables related to insurance contracts

Receivables and payables are recognized when due. These include amounts due to and from agents, brokers and insurance contract holders.

If there is objective evidence that the insurance receivable is impaired, the Group reduces the carrying amount of the insurance receivable accordingly and recognizes that impairment loss in the statement of profit or loss. The Group gathers the objective evidence that an insurance receivable is impaired using the same methodology adopted for financial assets held at amortized cost. The impairment loss is calculated under the same method used for these financial assets.

3.32 Other Revenue and Expense Recognition

a) Fees and commission

Fees and commission income and expense that are integral to the effective interest rate on a financial asset or liability are included in the measurement of the effective interest rate.

Other fees and commission income, including account servicing fees, investment management fees, sales commission, placement fees and syndication fees, are recognised as the related services are performed. When a loan commitment is not expected to result in the draw-down of a loan, the related loan commitment fees are recognised on a straight-line basis over the commitment period.

b) Interest

Interest income and expense are recognised in profit or loss using the effective interest method. The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial

asset or liability (or, where appropriate, a shorter period) to the carrying amount of the financial asset or liability. When calculating the effective interest rate, the Group estimates future cash flows considering all contractual terms of the financial instrument, but not future credit losses.

The calculation of the effective interest rate includes all transaction costs and fees and points paid or received that are an integral part of the effective interest rate. Transaction costs include incremental costs that are directly attributable to the acquisition or issue of a financial asset or liability.

Interest income and expense presented in the statement of profit or loss include interest on financial assets and financial liabilities measured at amortised cost calculated on an effective interest basis. Interest income and expense on all trading assets and liabilities are considered to be incidental to the Group trading operations and are presented together with all other changes in the fair value.

c) Net interest income

Net interest income includes interest on loan and advances earned and interest expenses incurred.

d) Net Trading Income

Net trading income includes income received on sale of goods and has been recognized in line with IAS 18 'revenue recognition' criteria and related cost incurred.

e) Investment and other operating income

Investment and other operating income comprise interest income earned on short-term deposits, rental income and dividends and foreign exchange differences. Investment income, other than interest income, is recognized at fair value and on an accrual basis.

Interest income is recognized in the statement of profit or loss as it accrues and is calculated using the effective interest rate method.

Investment expenses consist of costs relating to investment management services and operating expenses for real estate held for investment. These expenses are recognized on an accrual basis.

Rental income is recognized on an accrual basis.

f) Dividend income

Dividend income is recognized when the right to receive payment is established, the right to receive dividend is established when the dividend has been duly declared.

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES - cont'd

g) Management and other operating expenses

Management and other operating expenses are expenses other than claims and underwriting expenses. They include depreciation expenses, employee benefit and other operating expenses. They are accounted for on an accrual basis and recognized in the income statement upon utilization of the service or at the date of origination.

h) Borrowing Cost

These are interest and other cost that the group incurred in connection with the borrowing of funds. The cost include rate calculated using the effective interest rate method. The costs are recognized as an expense in the period in which they are incurred.

3.33 Segment Reporting

A reporting segment is an operating segment or aggregations of operating segments that meet specified criteria. Operating segments are components of an entity which separate financial information is available that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. This financial information is reported on the basis as used internally for evaluating operating segment performance and deciding how to allocate resources to operating segment. For the company the Chief operating decision maker is the Executive Management Team

The Group's primary format for segment reporting is based on business/subsidiaries segments. Significant geographical regions have been identified as the secondary basis of reporting.

3.34 Dividends

Dividend distribution to the Company's shareholders is recognized as a liability in the financial statements in the period in which the dividends are approved by the Company's shareholders. Dividends that are proposed but not yet declared are disclosed in the notes to the financial statements.

3.35 Cash Flows Method

IAS 7 permits a number of options in the presentation of cash flow from operating activities as either direct or indirect method. However, where statement of cash flow is prepared using the indirect method, the company shall be required to reconcile the net cash flows from operating activities to the direct method. The Group has presented its cash flow from operating activities using direct method.

3.36 APPLICATION OF NEW AND REVISED INTERNATIONAL FINANCIAL REPORTING STANDARDS (IFRS)

3.36.1 Standards and interpretations effective during the reporting period but not yet adopted

Applying IFRS 9 Financial Instruments with IFRS 4 Insurance Contracts (Amendments to IFRS 4) - Insurance contract effective 1 January 2018.

The company has elected to apply the temporary exemption (deferral approach) for IFRS 9 and qualifies for the temporary exemption based on the followings.

- (a) Its activities are predominantly connected with insurance contracts.
- (b) It has not previously applied any version of IFRS 9;
- (c) The carrying amount of its liabilities arising from insurance contracts and insurance connected liabilities for the Group and the Company sum up to N5.03billion and 3.2billion respectively as at 31 Dec 2020 which is greater than 90 per cent of the total carrying amount of all its liabilities as at 31 Dec 2020 ;
- (d) As at 31 December 2015, which is the reporting date that immediately precedes 1 January 2016, the carrying amount of the group and Company liabilities arising from insurance connected contracts were 91% and 93% for the Group and the Company respectively which is greater than 90 per cent of the total carrying amount of all its liabilities as at that date as showcases in the predominant test presented below;

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES - cont'd

	GROUP		COMPANY	
	2015		2015	
Liabilities	Carrying Amount	Insurance Contract	Carrying Amount	Insurance Connected Contract
	=N=	=N=	=N=	=N=
Insurance Contract Liabilities	2,096,391	2,096,391	1,617,026	1,617,026
Trade Payables	26,102	-	-	-
Provision and Other Payable	133,500	34,117	49,382	-
Retirement benefit obligation	2,700	2,700	2,166	2,166
Provision for Current Income Tax Liabilities	270,911	270,911	242,497	242,497
Deferred income tax liabilities	122,229	-	86,612	-
Total	2,651,833	2,404,119	1,997,683	1,861,689
Predominant Ratio		91%		93%

- (e) The company carry out predominant re-assessment as per permitted by Amendments to IFRS 4 at the end of reporting period ended 2019, at which the company's liability connected to insurance is 93% as shown below:

REASSESSMENT				
	GROUP		COMPANY	
	2019		2019	
Liabilities	Carrying Amount	Insurance Contract	Carrying Amount	Insurance Connected Contract
	=N=	=N=	=N=	=N=
Insurance Contract Liabilities	3,018,623	3,018,623	2,318,367	2,318,367
Trade Payables	11,020	-	-	-
Provision and Other Payable	612,848	385,575	200,716	9,884
Retirement benefit obligation	3,007	3,007	3,007	3,007
Provision for Current Income Tax Liabilities	262,322	262,322	214,085	214,085
Deferred income tax liabilities	99,500	-	-	-
Total	4,007,320	3,669,527	2,736,175	2,545,342
Reassessment Ratio		92%		93%

- (f) The company activities have remained the same and are predominantly connected with insurance contracts as reflected in (d) above.
- (g) There has been no any significant change in our business activities and model since 31 December 2015, which is the reporting date that immediately proceeds 1 January 2016.
- (h) The nature and carrying amounts of the liabilities connected with insurance contracts are disclosed in notes 17, 18, and 21 respectively.

IFRS 9 - Financial instruments effective 1 January 2018

IFRS 9 is part of the IASB's project to replace IAS 39. It addresses classification, measurement and impairment of financial assets as well as hedge accounting. IFRS 9 replaces the multiple classification and measurement models in IAS 39 with a single model that has only three classification categories: amortised cost, fair value through OCI and fair value through profit or loss. It includes the guidance on accounting

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES - cont'd

for and presentation of financial liabilities and derecognition of financial instruments which was previously in IAS 39. Furthermore, for non-derivative financial liabilities designated at fair value through profit or loss, it requires that the credit risk component of fair value gains and losses be separated and included in OCI rather than in the income statement.

IFRS 9 also requires that credit losses expected at the balance sheet date (rather than only losses incurred in the year) on loans, debt securities and loan commitments not held at fair value through profit or loss be reflected in impairment allowances.

Furthermore, the IASB has amended IFRS 9 to align hedge accounting more closely with an entity's risk management.

The revised standard establishes a more principles-based approach to hedge accounting and addresses inconsistencies and weaknesses in the current model in IAS 39.

The Group currently categorizes of its financial assets as Held to maturity and fair value through profit or loss with the fair value changes recognised in profit or loss, available for sale with the fair value recognised in OCI. The Group intends to classify most of its financial assets as financial assets at fair value through profit or loss and amortised cost, with few equity securities classified as fair value through OCI. The Group does not expect any material impact in the measurement of these financial assets under IFRS 9, as the assets will continue to be measured at fair value.

The Group has elected to apply the temporary exemption (deferral approach) for IFRS 9 - Financial Instruments. The expected impact of IFRS 9 on the group financial statement has been summarised in note 55.2.4 of the financial statement.

Amendments to IFRS 7, IFRS 9 and IAS 39 Interest Rate Benchmark Reform

The amendments to IFRS 9 and IAS 39 Financial Instruments: Recognition and Measurement provide a number of reliefs, which apply to all hedging relationships that are directly affected by interest rate benchmark reform. A hedging relationship is affected if the reform gives rise to uncertainty about the timing and/or amount of benchmark-based cash flows of the hedged item or the hedging instrument. These amendments have no impact on the consolidated and separate financial statements of the Group as it does not have any interest rate hedge relationships

Amendments to IFRS 3: Definition of a Business

The amendment to IFRS 3 Business Combinations clarifies that to be considered a business, an integrated set of activities and assets must include, at a minimum, an input and a substantive process that, together, significantly contribute to the ability to create output. Furthermore, it clarifies that a business can exist without including all of the inputs and processes needed to create outputs. These amendments had no impact on the consolidated and separate financial statements of the Group, but

may impact future periods should the Group enter into any business combinations.

Amendments to IAS 1 and IAS 8 Definition of 'Material'

The amendments provide a new definition of 'material' that states, "information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity." The amendments clarify that materiality will depend on the nature or magnitude of information, either individually or in combination with other information, in the context of the financial statements. A misstatement of information is material if it could reasonably be expected to influence decisions made by the primary users. These amendments had no impact on the financial statements of, nor is there expected to be any future impact to the Company.

The Conceptual Framework is not a standard, and none of the concepts contained therein override the concepts or requirements in any standard. The purpose of the Conceptual Framework is to assist the IASB in developing standards, to help preparers develop consistent accounting policies where there is no applicable standard in place and to assist all parties to understand and interpret the standards. This will affect those entities which developed their accounting policies based on the Conceptual Framework. The revised Conceptual Framework includes some new concepts, updated definitions and recognition criteria for assets and liabilities and clarifies some important concepts. These amendments had no impact on the consolidated financial statements of the Group.

Amendments to IFRS 16 Covid-19 Related Rent Concessions

On 28 May 2020, the IASB issued Covid-19-Related Rent Concessions - amendment to IFRS 16 Leases. The amendments provide relief to lessees from applying IFRS 16 guidance on lease modification accounting for rent concessions arising as a direct consequence of the Covid-19 pandemic. As a practical expedient, a lessee may elect not to assess whether a Covid-19 related rent concession from a lessor is a lease modification. A lessee that makes this election accounts for any change in lease payments resulting from the Covid-19 related rent concession the same way it would account for the change under IFRS 16, if the change were not a lease modification.

The amendment applies to annual reporting periods beginning on or after 1 June 2020. Earlier application is permitted. This amendment had no impact on the financial statement of the Group.

3.36.2 Standards issued but not yet effective

The new and amended standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Company's financial statements are disclosed below. The Company intends to adopt these new and amended standards and interpretations, if applicable, when they become effective.

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES - cont'd

IFRS 17 Insurance Contracts

In May 2017, the IASB issued IFRS 17 Insurance Contracts (IFRS 17), a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective, IFRS 17 will replace IFRS 4 Insurance Contracts (IFRS 4) that was issued in 2005. IFRS 17 applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features.

A few scope exceptions will apply. The overall objective of IFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. In contrast to the requirements in IFRS 4, which are largely based on grandfathering previous local accounting policies, IFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects. The core of IFRS 17 is the general model, supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach)
- A simplified approach (the premium allocation approach) mainly for short-duration contracts

IFRS 17 is effective for reporting periods beginning on or after 1 January 2023, with comparative figures required. Early application is permitted, provided the entity also applies IFRS 9 and IFRS 15 on or before the date it first applies IFRS 17. The Group will not adopt the new standard before effective date which is 1 January 2023.

Interest Rate Benchmark Reform - Phase 2 - Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16

On 27 August 2020, the IASB published Interest Rate Benchmark Reform - Phase 2, Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16. With publication of the phase two amendments, the IASB has completed its work in response to IBOR reform. Effective for annual periods beginning on or after 1 January 2021.

The amendments provide temporary reliefs which address the financial reporting effects when an intergroup offered rate (IBOR) is replaced with an alternative nearly risk-free interest rate (RFR).

The amendments is not expected to have a significant impact on the separate financial statements of the Group.

Reference to the Conceptual Framework - Amendments to IFRS 3

In May 2020, the IASB issued Amendments to IFRS 3 Business Combinations - Reference to the Conceptual Framework. The amendments are intended to replace a reference to a previous version of the IASB's Conceptual Framework (the 1989 Framework) with a reference to the current version issued in March

2018 (the Conceptual Framework) without significantly changing its requirements. Effective for annual periods beginning on or after 1 January 2022.

The amendments add an exception to the recognition principle of IFRS 3 to avoid the issue of potential 'day 2' gains or losses arising for liabilities and contingent liabilities that would be within the scope of IAS 37 Provisions, Contingent Liabilities and Contingent Assets or IFRIC 21 Levies, if incurred separately.

The exception requires entities to apply the criteria in IAS 37 or IFRIC 21, respectively, instead of the Conceptual Framework, to determine whether a present obligation exists at the acquisition date.

The amendments to IFRS 3 is not expected to have a significant impact on financial statements of Group.

Property, Plant and Equipment: Proceeds before Intended Use - Amendments to IAS 16 Effective for annual periods beginning on or after 1 January 2022.

The amendment prohibits entities from deducting from the cost of an item of property, plant and equipment (PP&E), any proceeds of the sale of items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling such items, and the costs of producing those items, in profit or loss.

The amendments to IFRS 16 is not expected to have a significant impact on the financial statements.

Onerous Contracts - Costs of Fulfilling a Contract - Amendments to IAS 37

In May 2020, the IASB issued amendments to IAS 37 Provisions, Contingent Liabilities and Contingent Assets to specify which costs an entity needs to include when assessing whether a contract is onerous or loss-making. Effective for annual periods beginning on or after 1 January 2022.

The amendments are intended to provide clarity and help ensure consistent application of the standard. Entities that previously applied the incremental cost approach will see provisions increase to reflect the inclusion of costs related directly to contract activities, whilst entities that previously recognised contract loss provisions using the guidance from the former standard, IAS 11 Construction Contracts, will be required to exclude the allocation of indirect overheads from their provisions. Judgement will be required in determining which costs are directly related to contract activities", but we believe that guidance in IFRS 15 Revenue from Contracts with Customers will be relevant.

The amendments to IAS 37 is not expected to have a significant impact on the Group financial statements.

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES - cont'd

IFRS 1 First-time Adoption of International Financial Reporting Standards: Subsidiary as a first-time adopter

The amendment permits a subsidiary that elects to apply paragraph D16(a) of IFRS 1 to measure cumulative translation differences using the amounts reported by the parent, based on the parent's date of transition to IFRS.

This amendment is also applied to an associate or joint venture that elects to apply paragraph D16(a) of IFRS 1.

An entity applies the amendment for annual reporting periods beginning on or after 1 January 2022. Earlier application is permitted. These amendments had no impact on the financial statements of the Group.

IFRS 9 Financial Instruments: Fees in the '10 per cent' test for derecognition of financial liabilities

The amendment clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf. There is no similar amendment proposed for IAS 39.

An entity applies the amendment to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment. An entity applies the amendment for annual reporting periods beginning on or after 1 January 2022. Earlier application is permitted. These amendments had no impact on the financial statements of the Group.

IAS 41 Agriculture: Taxation in fair value measurements

The amendment removes the requirement in paragraph 22 of IAS 41 that entities exclude cash flows for taxation when measuring the fair value of assets within the scope of IAS 41. An entity applies the amendment to fair value measurements on or after the beginning of the first annual reporting period beginning on or after 1 January 2022. Earlier application is permitted. This amendment had no impact on the financial statements of the Group.

Classification of Liabilities as Current or Non-current - Amendments to IAS 1

In January 2020, the Board issued amendments to paragraphs 69 to 76 of IAS 1 Presentation of Financial Statements to specify the requirements for classifying liabilities as current or non-current. Effective for annual periods beginning on or after 1 January 2022.

The amendments clarify:

- What is meant by a right to defer settlement
- That a right to defer must exist at the end of the reporting period
- That classification is unaffected by the likelihood that an entity will exercise its deferral right
- That only if an embedded derivative in a convertible liability is itself an equity instrument, would the terms of a liability not impact its classification

The amendments to IAS 1 is not expected to have a significant impact on the financial statements.

Sale or Contribution of Assets between an Investor and its Associate or Joint Venture - Amendments to IFRS 10 and IAS 28

In December 2015, the IASB decided to defer the effective date of the amendments until such time as it has finalised any amendments that result from its research project on the equity method. Early application of the amendments is still permitted.

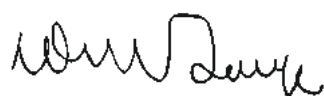

The amendments address the conflict between IFRS 10 Financial Statements and IAS 28 Investments in Associates and Joint Ventures in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognised when a transfer to an associate or joint venture involves a business as defined in IFRS 3. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognised only to the extent of unrelated investors' interests in the associate or joint venture.

The amendments to IFRS 10 and IAS 28 is not expected to have a significant impact on the financial statements.

Fair Value Gain/(Loss)	18,119	(127,980)	18,064	(126,438)
Impairment Loss	-	(5,000)	-	(5,000)
Market value as at 31 December	639,385	564,460	572,964	554,900

The Group classified its quoted investment at market value which is a reasonable measurement of fair value since price of the shares are quoted in an active market.

The sensitivity analysis for quoted equity financial instruments illustrates how changes in the fair value or future cash flows of a financial instrument will fluctuate because of changes in market rates at the reporting date.

A 5% basis point movement in market rates will result in addition/reduction in the value of the assets by; Group of =N=31.9Million (2019,=N=28.2) and Company=N=28.6Million(2019,=N=27.7)

The unquoted equity instruments are measured at fair value and classified as available-for-sale. The fair value of the unquoted equity have been determined using adjusted net asset method and was based on the latest audited financial statement of the investee companies. The fair value of the assets cannot be readily and reliably measured as there is no active market for both types of companies. The fair value of the investment has been categorised as Level 3 fair value based on non observable market inputs into the valuation technique. The Group intends to dispose of the shares at a price above the initial investment purchase price.

During the year the Company disposed its investment in Dominion Trust Limited with carrying value of =N=7.3million. A total proceed of =N=3.05million was received from its disposal.

5.4 Loans and receivables comprise as shown below:

Staff Loan (note 5.4a)	23,010	104,132	7,061	91,724
Loans and Advances_Ric Microfinance Bank (note 5.4b)	204,116	136,187	-	-
	227,126	240,319	7,061	91,724
(a) Staff Loan and Advances				
Balance as at the beginning of the year	104,133	10,896	91,724	3,031
Addition during the Year	12,369	99,710	3,915	91,256
Repayment During the Year	(97,014)	(8,159)	(90,733)	(2,879)

Regency Alliance is the Parent Company with significant interest in the subsidiary Companies as at 31 December 2020 were as follows:

Subsidiary	Activity	Effective Entity holding %	Non Controlling Interest %	Place of Incorporation	Date of Incorporation /Acquisition
Regency Nem Insurance (Ghana) Limited	Insurance	42	58	Ghana	2015
RIC Microfinance Bank Limited	Banking operation	95	5	Nigeria	17th December, 2008
RIC Technologies Limited	Sale of vehicle trackers	90	10	Nigeria	18th April, 2009
RIC Properties and Investment Limited	Property leasing and investment	97	3	Nigeria	4th January, 2005

The Company, along with its subsidiaries, make up the Regency group

During the Financial year 2016 there was a merger between Regency Insurance(Ghana) limited and Nem (Ghana) Insurance Limited at ratio of 60% to 40% respectively.

Although the Group owns less than half of the voting power of the investee, the directors have determined that it has acquired de facto control over the investee when it acquired the investment because the Group has held significantly more voting right than any other vote holders. The Group applied acquisition account method to its investment.

NOTES TO THE ACCOUNTS - cont'd

As at 31st December

The Group also has indirect exposure or right to variable return through its de facto agent Roland Agambire who owns 18% interest in RegencyNem.

Hence the Group chose to consolidate RegencyNem Insurance Ghana Limited.

Significant restrictions

The Group does not have significant restriction on its ability to access or use its assets and settle its liabilities other than those resulting from the supervisory framework within which the group operate. The supervisory framework requires the insurance subsidiaries to keep certain levels of regulatory capital and liquid asset.

Investment Properties represents the Group/Company's investment in landed and Buildings for the purpose of capital appreciation. The Company's Investment properties are stated at fair value, which has been determined based on valuations performed by Tunji Ologbon Partnership (Estate Surveyor and Valuer), a professional firms of Estate Surveyors and valuers registered with Financial Reporting Council of Nigeria (FRC)with registration NO-FRC/2012/NIESV/00000000097. The valuation was based on open market value, Comparism method was adopted to arrive at the worth of the land. This involves the analysis of recent sales and available listing of similar properties for sales within the neighborhood allowing for a differences in the location, condition, time, quality of the infrastructures and other environmental factors that are likely influence the value of the land in its undeveloped state.

Details of the Valuer

The investment properties were independently valued as at 31 December, 2020 by Tunji Ologbon Partnership (an estate surveyor& valuer) duly registered with the Financial Reporting Council of Nigeria. The valuer, which is located at N0. 14, Oladipo Kuku Street, Off Alen Avenue, Ikeja Lagos, is a qualified member of the Nigerian Institution of Estate Surveyors and Valuers with FRC No.FRC/2012/NIESV00000000097.

Kindly note that our consultant has not effect FRC Rule 2(b)

The subsidiary's Capital Work in Progress (RIC Properties and Investment Ltd) represent blocks of hostel under development, the group applied cost model in its valuation.

The fair value can not be readily determined as they were still under construction.

There are no restrictions on the realisability of investment property or the remittance of income and proceeds of disposal. The Group has no contractual obligations to purchase, construct or develop investment property or for repairs or enhancement.

The Group had no capital commitment as at reporting date and no Group Investment Property was pledged as a security for liabilities

The fair value disclosure on investment properties is as follows:

	Quoted price in active market	Fair value measurement using Significant Observable Input	Significant Unobservable Input

	4,341,272	3,018,623	2,971,806	2,318,367
Current	4,341,272	3,018,623	2,971,806	2,318,367
Non-Current				

Allocation of Asset To Policy holders fund

Cash and Cash Equivalents	1,998,354	2,551,588	1,431,473	2,219,991
Reinsurance asset	2,269,782	-	1,127,475	-
FGN Treasury bills/bond	73,136	467,034	412,858	98,376
	4,341,272	3,018,623	2,971,806	2,318,367

The Insurance contract liabilities of the Company were based on Independent Actuaries valuation report authorised by Junaid Akram on behalf of TAF Consulting Nigeria Limited. A professional actuary registered in Nigeria with the Financial Reporting Council of Nigeria with registration no-(FRC number 'FRC/2014/NAS/00000006904')

Kindly note that our consultant as not effect FRC rule 2b.

17a. Movement in unearned premium provision(UPR):

Opening balance	1,722,757	1,820,727	1,229,614	1,134,394
Movement during the year	(8,895)	(141,407)	(55,488)	95,220
Exchange difference	8,261	43,437	-	-
Carrying Amount as at the end of the year	1,722,123	1,722,757	1,174,126	1,229,614

The company does not make provision for premium deficiency. This is because all classes of business in which the company is involved report a profit i.e the premium written is in excess of claims incurred.

PLEASE NOTE THAT MAJORITY OF THESE CLAIMS INVOLVE LONG TAIL LIABILITY AND SPECIAL RISK CLAIMS THAT TAKES A LONG WHILE TO FULLY DOCUMENT THE CLAIMS. FURTHERMORE, IN MAJORITY OF THE CASES, WE ARE NOT THE LEAD INSURER IN MOST OF THE CLAIMS UNDER THIS CATEGORY.

NOTES TO THE ACCOUNTS - cont'd

As at 31st December

Claim Development tables

In addition to scenario testing, the development of insurance liabilities provides a measure of the Company's ability to estimate the ultimate value of claims. The top half of each table below illustrates how the Company's estimate of total claims outstanding for each year has changed at successive year-ends. The bottom half of the table reconciles the cumulative claims to the amount appearing in the Financial Position.

Claims Paid Triangulations as at December 2020

47 BASIC & DILUTED EARNINGS PER SHARE

Basic Earnings per share (calculated by dividing profit after tax attributable to ordinary equity holders of parent for the year), are based on the weighted average number of shares held during the year.

Adjusted earnings per share is determined by dividing the profit or loss attributable to ordinary shareholders by the weighted average number of ordinary shares adjusted for the bonus shares issued.

NOTES TO THE ACCOUNTS - cont'd

As at 31st December

	THE GROUP		THE COMPANY	
	2020 N'000	2019 N'000	2020 N'000	2019 N'000
Profit for the Year	590,289	716,389	628,587	649,594
Weighted average number of ordinary shares in issue	6,668,750	6,668,750	6,668,750	6,668,750
Basic earnings per share (in kobo)	8.85	10.74	9.43	9.74

The calculation of basic earning per share as at 31 December, 2020 was based on the profit attributable to ordinary shareholders of =N=590,289 and =N=628,587 for the Group and the company respectively and weighted average number of ordinary shares outstanding of 6,668,750,000. The Group and the Company had no diluted instruments as at 31 DECEMBER 2020. Hence the basic and diluted earnings per share are equal.

48 DIRECTORS AND EMPLOYEES

i The average number of full time persons employed during the year were as follows:

	Number	Number	Number	Number
Management	57	59	39	41
Senior Staff	29	29	12	12
Junior Staff	130	126	63	59

As at 31st December

49 Contingencies (Litigation and Claim)

In the normal course of business, transactions are entered into that generate a range of contingent liabilities. These include litigations arising out of insurance policies and consolidated entity's undertaking from maintenance of net worth and liquidity support to subsidiaries. Such undertakings constitute a statement of present intent only and are not intended to give rise to any binding legal obligation.

The Company is currently involved in five litigations (2019: 5). The actions are vigorously contested, and the Directors, based on the advice of the Company Secretary/Legal Adviser Anu Shobo with FRC Number FRC/2013/NBA/00000003654, are of the opinion that provision are not likely required in respect of these matters. As it is not probable that a future sacrifice of economic benefit will be required or the amount is not capable of reliable measurement.

In 2012, one Alhaji Ibrahim Isah filed a suit against the Company. The claim arose from comprehensive Motor Insurance. The plaintiff is claiming the sum of N2, 504,911.00 being the incurred medical expenses, N5, 200,000.00 as compensation for the plaintiff's damaged vehicle and N10, 000,000.00 as general damages. The matter came up on the 19th December, 2016 in the Niger High Court, Suleja but was adjourned for adoption of final written addresses. The Company had filed its final written address but was pending for adoption because the Plaintiff filed an application to re-open his case which was granted by the court. The matter is still pending before the High Court for adoption of final written addresses.

The Company is optimistic of a favourable outcome of court ruling on the matter. Accordingly, no provision has been recognised in respect of the claims as at 31st December 2020.

50 CAPITAL EXPENDITURE COMMITMENT

There are no material capital expenditure commitment at the end of the reporting date.

51 Related party transactions

(a) Parent:

Regency Alliance Insurance Plc (incorporated in Nigeria) is the ultimate parent company of the Group.

Subsidiaries:

In the normal course of business, insurance policies are sold to related parties at terms and conditions similar to those offered to major clients.

57 ENTERPRISE RISK MANAGEMENT

57.1 Introduction and Review

The insurance industry just like the global economy suffered from the COVID 19 Pandemic in 2020 coupled with various political and economic fallouts and pressures from local events such as 'End Sars' that affected economic activities in Nigeria, the year was a challenging year in risk management. Having an effective capital and risk management has been a key fundamental to our business activities of RegencyAlliance insurance Plc. ("the Group").

We deploy the best risk management practices applicable in our operating environment with a view to identifying, measuring, monitoring, controlling, reporting and updating on emerging risks that are material to our operations and such prevailing in our business operation. The Group's ERM framework is in line with Committee of Sponsoring Organizations of the Treadway Commission (COSO) as approved by the insurance industry regulator (NAICOM), to identify, assess, manage and monitor the risks inherent in our operations.

Principles

- The Group will accept only the risks that fall within the risk appetite.
- The Group's ERM risk principles will not be compromised; rather it shall identify, evaluate, manage, control and communicate as possible all risks within the organization.
- The Group will build and entrench an enduring risk culture, which shall pervade the entire organization.
- The Group will always comply with all government regulations and uphold international best practice.

ERM Strategy

ENTERPRISE RISK MANAGEMENT - cont'd

Internal Environment: considers how the Group's history, culture, values, organizational structure, strategy, policies and procedures affects its risk culture. It forms the foundation for defining the Group's risk approach appetite.

Objective Setting: This involves setting of strategic objectives for the Group through its risk strategy. The Group's risk tolerance and the alignment between its risk appetite and its objectives form part of the overall Group strategy.

The risk appetite is determined, while risk tolerance, the acceptable level of variation around the objectives, is aligned with risk appetite.

Event Identification: Describes those developments either internal or external to the Group that could significantly affect its ability to meet its strategic objectives, either positively or negatively. In order to assure that the full scope of the Group is considered, event and trend identification is done broadly engaging a cross-section of Group staff.

Risk Assessment: Describes the extent to which potential events and trends might affect the company's objectives. Events and trends are assessed by two criteria - impact and likelihood. Risk assessments can be done by qualitative and/or quantitative methods. Inherent and residual risk assessments are employed. Both positive and negative impacts and likelihoods are evaluated. A catalogue of the full spectrum of risks, with impacts and likelihoods evaluated, form the Group's risk register.

Risk Response: Identifies and evaluates possible responses to risk, assesses options in relation to the Group's risk appetite, cost vs benefit of potential risk responses, and degree to which a response will reduce impact and/or likelihood. Such proposed responses are selected and executed based on evaluation of the portfolio of risks and responses.

Control Activities: include policies and procedures that help ensure that the risk responses, as well as other company directives to mitigate risks to the achievement of strategic objectives are carried out. This is enterprise wide.

Information and Communication: Management identifies, captures, and communicates pertinent information in a form and timeframe that enables people to carry out their responsibilities. Communication occurs in a broader sense, flowing down, across, and up the organization.

Monitoring: Effectiveness of the other ERM components is monitored through ongoing monitoring activities and separate evaluations, and a combination of both.

Our approach

Our ERM strategy is the approach to achieving the vision and mission of the company; it is based on the implementation of an effective ERM Framework which supports the delivery of sound

business operations and long - term growth reckoning the constantly changing business climate. This incorporates new knowledge of global and local challenges to stability and profitability.

As part of the risk strategy, the Group's risk management ensures the identification, treatment and quantification of all key risks, establish control on key threats and continue monitoring to keep aversive threshold within residual level as spelled out in the appetite. Its objective is to add maximum sustainable value to all the activities of the organization. It aids the understanding of the potential upside and downside of all those factors, which can affect the organization. It increases the probability of success; reduces both the probability of failure and the uncertainty of achieving the organization's overall objectives

Philosophy

The Group's risk philosophies are as stated below:

- We shall employ the best risk management practices applicable in our operating environment with a view to identifying, measuring, monitoring, controlling and reporting every material risk prevailing in our business operation in order to maximize our value to stakeholders.
- We would not avoid risk but manage it. Risk controls would not constitute an impediment to the achievement of our strategic goals.
- We would continually review our activities to determine the level of risks inherent in them in order to adopt appropriate risk response at all times.
- We would continue to adopt a holistic and integrated approach to risk management and, therefore, brings all risks together under one or a limited number of oversight functions.
- Our decisions would be based on careful analysis of the implications of such risk to our strategic goals and operating environment.

57.2 ENTERPRISE RISK MANAGEMENT FRAMEWORK

The Risk Management Framework (RMF) approved by the Board defines how managing risk is a part of our day-to-day management of the company, it is inherent within the strong working practices and incorporates the Governance Framework, Risk Profiling Process, Risk Appetite, Reporting Processes, Culture and Communications. This has been updated in the face of the new global realities and shifts in technological deployment, issues around the environment, safety and health.

Governance Framework

The key components of the Group's governance framework involves understanding our lines of defence, visibility of key functions, ensuring that each strategic staff is a fit & proper person, defining various roles and responsibilities and clearly defined policies, procedures with effective internal control systems in the organisation. The ERM framework and other formal risk policies are part of the governance process for running the business and in

ENTERPRISE RISK MANAGEMENT - cont'd

doing so, it will maintain core business critical high risk functions in house, outsourcing where appropriate from a commercial and risk perspective.

The Group's three Lines of Defence

The company recognise the three lines of defence as integral to the control environment as detailed below:

First line (1st line) - Business Management and Risk Owners

The Board, Management and Risk Owners are the primary line of defence, identifying risks, implementing a control structure that is operated continually through a Risk Control and SELF Assessment that enables understanding the risk climate across different units to identify /prevent errors and if errors occur, to rectify the current event and to ensure lessons are learnt and a similar incident is prevented in future. They ensure that all risks are contained within appetite and that appropriate information is received to monitor adherence. In some instances, other departments act as in intermediate line of defence for errors that take place in other parts of the business. Such functions include, but are not limited to Finance, Underwriting and Claims.

Second line (2nd line) - Non-independent Functions who provide challenge

Functions which operate in this area tend to be independent from the business lines and provide review and challenge over the effectiveness of the control environment in place to manage the

risks identified, in some cases conducting ad-hoc checks. These functions are assurance providers to the Board and include Compliance and Risk Management Functions.

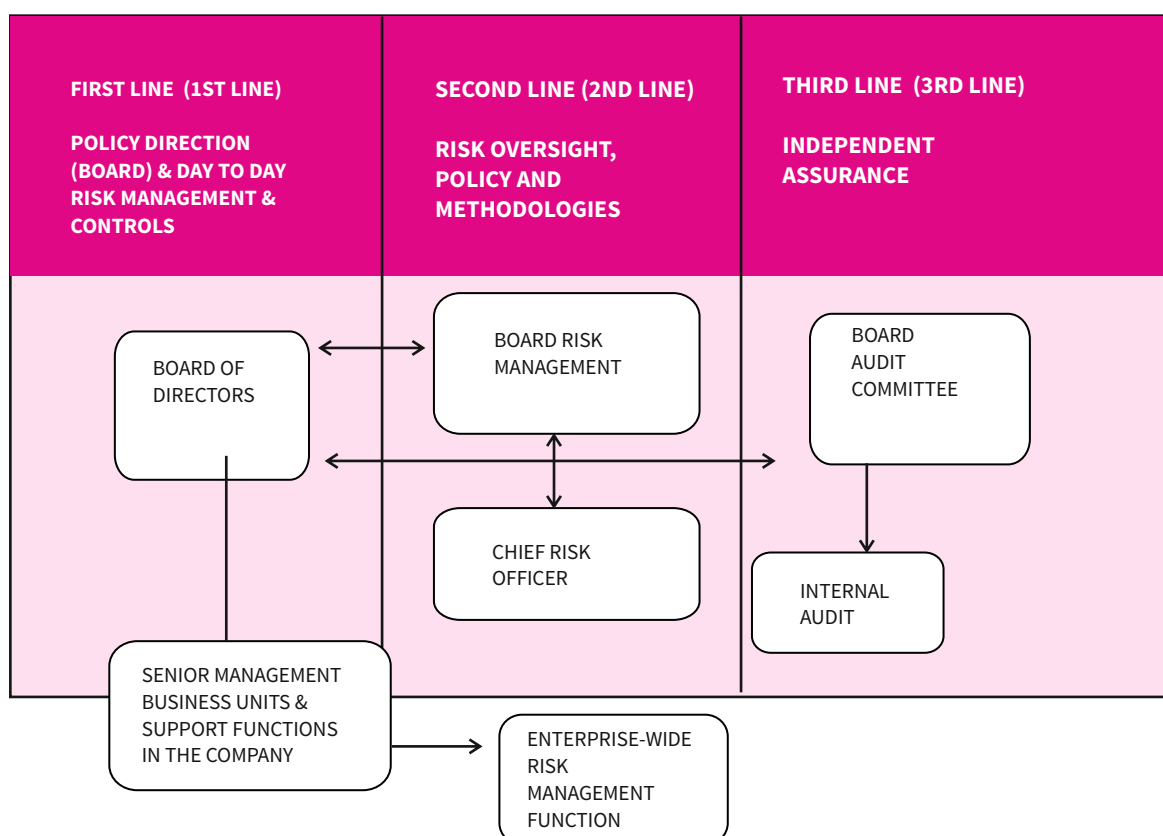

Third line (3rd line) - Independent Assurance

Internal Audit act as the third line of defence and their primary responsibility is to provide assurance to the Audit, Risk Committee and Board that the controls in place to manage risks identified are operating as intended and that there are no control gaps in place. Internal Audit has a direct reporting line to the Audit and Risk Committee.

Third Line (3rd Line) - Independent Assurance

Internal Audit act as the third line of defence and their primary responsibility is to provide assurance to the Finance, Investment and General Purpose; Enterprise Risk Management and Governance; and Audit and Compliance Committees of the Board and the Board that controls in place to manage risk identified are operating as intended and that there are no control gaps. Internal Audit has a direct reporting line to the Audit and Risk Management Committee, Enterprise Risk Management and Governance Committee of the Board.

ERM Governance Structure

ENTERPRISE RISK MANAGEMENT - cont'd

Risk Culture

"Culture clarifies the kind of behaviour acceptable within the group. Corporate failures occurred mainly because the written principles were simply like the good gospel preached and not practiced" - McKinsey & Co. Our risk culture where effective risk management is an integral and natural part of the way most people work - embedding risk management - is a long-term aim for RAIP.

The Group adopted the following approach;

- The Board and management consciously promote a responsible approach to risk and ensure that the long-term survival and reputation of the Company are not jeopardized while expanding the market share.
- Building awareness by communicating risk updates and using role models in the organisation.
- Changing behaviour by helping staff to see risk management as important, by achieving a healthy attitude to "well-managed risk taking, by recognising and working with different perspectives on risk, by making the "risk thermostat" work well and avoiding "bottom loop" bias and by encouraging risk-based decision making.
- Taking the opportunities for culture change by taking advantage of central initiatives and by using crises and failures.
- Supporting and nurturing the new culture.
- Measuring how well change is being delivered and sustained.

Risk Appetite

Our risk appetite which is "the degree of risk, on a broad-based level, that reflects the extent of our risk opportunities and aversiveness as we pursue profitability.

The Group's Risk appetite reckoned all risks across the business in an integrated manner both quantitative and qualitative and is aligned with our business and capital strategy. Quantitatively, our risk appetite framework is designed such that we are able to monitor and manage both total risk and fulfilment of our risk appetite within a set of pre-defined set of "hard" and "soft" boundaries or risk limits. The Risk appetite framework is aligned with our risk policies.

Our high level risk appetite summary is as follows:

- We expect our counterparty exposure to be no greater than 1 years' profit and seek to balance reinsurance quality and diversification.
- We expect to be able to meet normal working liabilities immediately as they fall due
- We do not expect any material compliance failures or breaches with regulatory requirements
- We do not expect any system or infrastructure failures which cause significant business disruption.
- We will not incentivise people to engage in risk taking activities that fall outside our targets and appetites.

The risk appetite is set by the Board of Directors annually, at a level that minimizes erosion of earnings or capital due to avoidable losses in the Company, or from frauds or operational inefficiencies. The Company's appetite for risk is governed by the following:

- (i) Exception reporting by internal control officers, auditors, regulators and external rating agencies;
- (ii) Adverse publicity in local and international press;
- (iii) Frequent litigations;
- (iv) Payment of fines and other regulatory penalties; and
- (v) Above average level of staff and customer attrition.

The Company will not compromise its reputation through unethical, illegal and unprofessional conduct.

Enterprise risk management Categorisation

The Group and Company has identified sixteen(16) broad risk areas arising from execution of its operations, which are:

- Investment Risk
- Talent Risk

Liquidity Risk

Liquidity risk is the risk arising from inability to fulfill its contractual and regulation obligations as and when due owing to insufficient liquid assets.

It is the policy that cash and cash equivalents are adequate to cover all expected outflows as the Group is committed to meeting all liabilities as and when due. The Group ensures that sufficient funds are available at short notice to meet such liabilities and unexpected levels of demands.

The following tables analyze the financial assets and financial liabilities by maturity date of the Company and the Group as at December, 2020

GROUP	Total		0-3months		3-6months		6-12months		1-5years

ENTERPRISE RISK MANAGEMENT - cont'd

Credit/Counterparty Risk

Credit / Counterparty Risk is defined as the risk of loss or adverse change in the financial position resulting directly or indirectly, from fluctuations in the credit standing of issuers of securities, counterparties and any debtors to which undertakings are exposed, in the form of counterparty default risk, or spread risk, or market risk concentrations.

Risk Identification

Subject to regulatory guidance, the philosophy of the Group is to ensure that credit is only provided to counterparties where it is believed that default is unlikely. When considering granting credit, the following must be considered:

- The likelihood of a default event to occur compared to appetite
- The likely gross credit exposure at the time of default, considering the potential for exposures to increase as a result of further drawdowns, collections and recoveries costs and other rights held by the obligor/guarantor/reinsurer which might increase the exposure.
- The likely availability and value of any specific collateral to reduce the gross exposure. Due allowance should be made for the legal and financial ability of guarantors to fulfill guarantees if called upon to do so.
- Similarly careful analysis should be made as to the level of protection afforded by risk netting arrangements, credit derivatives, margin and other equivalent arrangements.
- Residual likelihood of loss, with reference to all relevant domiciles, seniority of claim, likely availability of other assets, guarantees or insurances to reduce loss, legal system and political considerations as appropriate.

On reinsurance, the Group mitigates credit risk by applying minimum security standards for all its reinsurance programmes in terms of the credit rating of the reinsurance companies, and the proportion ceded to each reinsurance companies. The Group has a diverse panel of reinsurance companies to avoid concentration risk. The overall distribution of the reinsurance receivable in percentage basis is given below

Credit Rating

A	45
BBB+	10%
B+	45%
Total	100%

The overdue premiums are considered by the Group on case by case basis. If an overdue premium is recognised by the Group as uncollectible, a notification is sent to the cedants (ceding companies) and the reinsurance agreement is assigned for monitoring from the date of notification. The uncollectible portion of the premium receivable are considered as impaired and charged through the statement of comprehensive income.

On insurance receivables, the Group has a credit control policy which is enforced by the credit control unit and which forms part of the underwriting process in line with the 'No Premium, No Cover' policy guidelines issued by NAICOM in respect of Insurance Contract. Insurance covers are only granted on receipt of full premium in advance or full premium notification (credit note) from a licensed Insurance Broker. Full premium notification (credit note) shall subsist for a period of 30 days.

Any premium not received, in respect of premium notification, after 30 days is fully impaired and the cover cancelled. Hence no impairment was recognized. The table below shows the ageing of receivables:

	679,489	744,579	572,964	692,593

Fair value changes during the year are disclosed in 5.2 and 5.3 respectively

Risk monitoring

The Group Board Risk Committee (GBRC) is the primary executive governance and risk oversight mechanism for risk matters across the Group.

Risk oversight of credit counterparty risk on behalf of the GBRC is a responsibility of the CRO function, specifically the Credit & Counterparty Risk Manager.

Risk reporting

This section sets out the GBRC approved approach to credit risk reporting, with the overall objective of being to ensure that:

- risk information supports the need of business units and the Group to take a proactive response to developing business conditions in the context of the extent and diversification of the portfolio and the importance of individual exposures
- regulatory requirements and guidance are met
- Credit portfolio modeling and reporting covers:
- credit equivalent exposure reporting, including identification of significant individual exposures
- stochastic portfolio reporting making due allowance for concentration and diversification
- stress and scenario analysis relating to 1 in 25 year adverse economic conditions

Credit counterparty risk reporting must include separate identification and assessment of problem exposures and defaulted exposures. Where appropriate the identification and assessment may be made on a portfolio rather than a case-by-case basis.

Market Risk

Market Risk the risk of loss, or of adverse change in the financial situation, resulting directly or indirectly from fluctuations in the level and in the volatility of market prices of assets, liabilities and financial instruments.

Risk Identification

The key financial market risks that the Group is exposed to are fluctuations in the level and in the volatility of market prices of assets, liabilities and financial instruments. Financial Markets Risk is identified through a combination of asset-liability management (ALM) reporting by the business units and valuation reports provided by the Funds Manager. These reports will cover the market risk based on the key ALM and economic metrics agreed by the business unit with Board Risk Committee and the Investment Committee. These reports should be updated by the business unit and the Fund Manager and reviewed by the Investment Committee on a quarterly basis; or

- Prior to a proposed material change in investment policy.
- After any material financial market event (i.e. equity market movements in excess of 10% since the previous report or the 10 year changes by more than 25 basis points since the previous report).
- After any material change in the business unit liability profile.

Aggregation of the Group's overall market risk exposure will be reported by the Actuarial Function on metrics agreed with the Group Board Risk Committee (GBRC) and Investment Committee.

ENTERPRISE RISK MANAGEMENT - cont'd

Risk monitoring

The Board Risk Committee is the primary executive governance and risk oversight mechanism for risk matters across RAIP.

Business units incurring Markets risk are required to monitor the exposure and potential for loss across all asset classes in the light of changing external market and economic factors. For each asset class of business, the Board requires:

- Appropriate market risk management infrastructure to be established and maintained subject to oversight of the Board Risk Committee;
- Appropriate documentation to be established and maintained subject to oversight of the Group Board Risk Committee.

Risk reporting

The Group Board Investment and Risk Committee are empowered to determine the reporting and record-keeping requirements for Markets Risk across the Group, proportionate to the nature of risk taking activities and sufficient to comply with all regulatory rules and guidance.

They are required to ensure that reporting of derivative contracts and/or structured investment products is appropriate to the transaction volumes and purposes for which such risks are undertaken.

They are required to ensure that appropriate economic analysis and market data is available to it to ensure that risks are fully identified and to ensure a proper context for potential management actions.

Interest rate risk

The Group is moderately exposed to interest-rate risk through its conservative investment approach with high investment in fixed interest income and Money Market.

The fluctuations in interest rates cannot significantly impact the group financial position as interest-rate bearing liabilities are quite small compared with the interest-rate earning assets.

Foreign currency exchange rate

The Group is exposed to foreign exchange currency risk primarily through transaction denominated in foreign currencies.

The Group is exposed to foreign currencies denominated in Dollar, Euro and Pound-denominated bank balances in other foreign currencies. At the year end, the foreign currency investments held in the portfolio were cash and cash equivalents.

The carrying amounts of the Group's and company's cash and cash equivalent on a currency by currency basis is as indicated in the following table

	CURRENCY RISK							
	GROUP				COMPANY			
	2020 N '000'	%	2019 N '000'	%	2020 N '000'	%	2019 N '000'	%

Equity risk

The Group's investment policy establishes limits (as approved by the Board) on the level of risk in the investment portfolio. By so doing, the portfolio is diversified while allowing for a sufficient quality in line with the level of risk aversion. The huge investment in the stock market is anchored on the fact that the volatility in the market notwithstanding, the indicators shows an upward trend in the medium to long term.

Operational Risk

Operational Risk is defined as the risk of loss resulting from inadequate or failed internal processes or from personnel, systems, and external events or from reputational damage.

Risk Identification

Inherent risks against the achievement of business objectives are identified on both a top-down approach through the business planning, objective and strategy process; and bottom-up approach through Risk Control Self Assessment, from detailed reviews of the whole range of people, processes and systems in each business area, to ensure all potential Operational risks are identified.

Triggers should be identified which will determine the need to undertake a reassessment and review of the risk profile and assessment. At a top down level, for example, this could be caused by a change in the business plan, strategic developments, change in operating model, external developments. Under a bottom up approach, for example, the need for reassessment can be caused by regulatory changes, process changes, system changes, or from changes in outsourcing approach.

Risk assessment - stress and scenario testing

As part of the annual business planning process and for individual capital assessment (ICA) purposes, stress testing analysis is conducted against a series of appropriate scenarios. Within this analysis, the implications for Operational risk are assessed using a range of modeling techniques based on the risk impact data recorded in the Group's Operational risk database.

Risk monitoring

Business Units are required to provide adequate and timely management information to enable management of risks with risk owners playing active roles in risks identification. All Operational risks have an assigned owner, and they:

- Regularly monitor their operational risks in order to detect any changes in exposure to them, including looking at.
- Actual operational risk event losses and near misses.
- Key risk indicators identified for each risk to monitor each risk exposure.
- Results of first line monitoring activity of effectiveness of operation of controls.
- Findings from assurance activity arising from both the second and third lines of defense external developments.
- Undertake regular assessment, reflecting the above, and to assess the residual risk exposure.
- Support the overall monitoring of Operational risk at Group level by providing reports on any changes in their exposure to operational risk to Group Risk Management.

Risk reporting

Business Units ensured that significant internal control deficiencies and breakdowns were reported in a timely and transparent manner to the appropriate line management, and escalated where appropriate.

Risk owners must:

- report any significant changes in operational risk exposure and escalate to the appropriate Business Unit Risk Committee
- report any operational risk events arising, the corrective action being taken to address the issue to ensure it will not recur, together with any resultant impact on the valuation of the corresponding risk
- Within each business unit, each functional head should provide a risk report to be presented at the first line risk committee.

ENTERPRISE RISK MANAGEMENT - cont'd

Insurance Risk

Insurance risk relates to the inherent uncertainty in the liabilities within our insurance contracts. It arises through fluctuations in the timing, frequency and severity of insured events relative to the expectations of the firm at the time of underwriting. It also includes consideration of fluctuations in the timing and amount of claims settlements.

Insurance risk is deemed to have been accepted (or written) if the Group executes a contract under relevant insurance law to make payments to policyholders (insurance liabilities) in the event of specified circumstances. Insurance risk management is concerned with the identification, analysis and response to potential fluctuations in the occurrence, amount and/or timing of its insurance liabilities.

This policy covers all such Insurance Risk that arises from our portfolios of GI business, primarily risks associated with:

- Underwriting - including inadequate or inappropriate pricing and policy terms, or inappropriate claims indemnity guidelines
- Reserving - inappropriate provisions being set aside for ultimate liabilities arising from the business written; inappropriate data modeling and assumptions leading to incorrect ultimate reserve projections
- Reinsurance - inappropriate assumptions or analysis leading to inadequate cover to protect against the frequency/severity of large losses
- Claims risk - emanating from fraud.

Risk Identification

Subject to regulatory guidance, the philosophy of the group is to price insurance contracts on the basis of the risks presented and target returns required by the Group having regard to:

- Underwriting standards/processes.
- Expenses.
- Charges to policyholders.
- Anticipated persistency.
- Expected claims.

As a practical matter, the pricing principles set out in the preceding paragraph are implemented based on the expected business mix to be underwritten.

Periodic reviews are conducted to test the effectiveness of pricing in relation to the original assumptions made.

Any unit underwriting general insurance business is required to maintain a record of underwriting decisions, incorporating the rationale for business acceptance, for a period of five years.

Reinsurance arrangements

Reinsurance contracts (treaties) are executed for any of the following purposes:

- Reduction of insurance risk
- Risk financing

- Obtaining access to reinsurer pricing models and/or underwriting approach

Normally, reinsurance contracts are to be subject to a formal tendering process in line with the Group Sourcing Policy. However, subject to documented approval by the BRC, a Reinsurer can be selected directly.

All reinsurance contracts undertaken:

- Are subject to the law of Nigeria and legal process, unless subject to specific approval by the BRC.
- Only involve regulated insurance firms that meet the criteria and limitations on acceptable counterparties as set out in the Group Credit Risk Policy
- Are with regulated insurance firms domiciled in Nigeria except where the regulatory body gives approval to other Insurance companies domiciled outside Nigeria by Foreign Insurance Companies.

The defined owner of any reinsurance contract is the Managing Director.

Special Purpose Vehicles (SPV) owned by the Group may be used as reinsurance counterparties, providing all conditions within this policy are met. The credit rating of the SPV is deemed to be the credit rating of the Group (if one is held) or as agreed for this purpose by the BRC.

Appropriate legal advice are taken before any reinsurance contract is concluded. All contracts should include a resolution procedure in the event of disputes arising over wording and payout delays. If the resolution procedure is invoked in relation to matters of significance, then the BRC must be informed at the next meeting.

All reinsurance arrangements must be reviewed on a minimum cycle of one year, unless agreed by the BRC, to ensure that:

- terms remain competitive
 - the contract still represents good value for the Group
- The credit status of the reinsurance counterparty/ies must be monitored on a regular basis.

Risk monitoring

Business units incurring General Insurance risk are required to monitor the effectiveness of risk rating and/or pricing approaches in the light of:

- Emerging experience
- Prospective environmental conditions
- Projected persistency and expenses
- Trends in key risk indicators agreed with the BRC
- Effectiveness of underwriting/claims arrangements
- For each type and class of business, the Board requires:
- Appropriate Insurance risk management infrastructure to be established and maintained subject to oversight of Board Risk Committee (BRC)
- Periodic review of experience, prospective populations and prospective insurance environment

ENTERPRISE RISK MANAGEMENT - cont'd

- Appropriate expense, acquisition and other costs management to be established and maintained subject to oversight from Finance Unit
- Appropriate documentation to be established and maintained subject to oversight of the BRC.

Risk reporting

The BRC is empowered to determine the reporting and record-keeping requirements for GI Insurance Risk across the Group, proportionate to the nature of risk taking activities, and sufficient to comply with all regulatory rules and guidance.

Hazard Risk

Hazard risk is the risk arising out of any condition, situation practice, behavior or conduct that has the potential to cause harm, including injury, disease, death, environment or property and equipment damages.

Risk monitoring

This involves ongoing monitoring of the hazards identified, risks assessed and risk control processes and reviewing them to make sure they are working effectively.

Risk reporting

Business Units ensured that significant internal control deficiencies and breakdowns were reported in a timely and transparent manner to the appropriate line management, and escalate where appropriate.

Legal and compliance risk

The level of awareness of the need to identify, mitigate and manage legal risks in our business activities and transactions continues to improve. Processes have been put in place to enable officers within the Group to have access to sound legal advice on product development and business initiatives.

The Company's level of compliance has continually been reviewed in line with the demand of the Regulators to know their customers and their businesses (KYC) as well as implement processes/controls to combat money laundering and terrorist financing. The Group identifies and mitigates these risks through continuous improvement in technology infrastructure, process rejuvenation/revalidation and training of stakeholders to understand regulatory obligations and consequences of non-compliance.

The Group in the year had been prompt and accurate in rendering all relevant reports to the regulators.

Outsourcing risk

Outsourcing is an arrangement in which one entity provides services for another entity that could also be or usually have been provided in-house. Outsourcing is a trend that is becoming more common in insurance Companies and other industries for services that have usually been regarded as intrinsic to managing a business.

Anti-corruption Risk

Bribery is the offer, promise, giving, demanding or acceptance of an advantage as an inducement for an action which is illegal, unethical or a breach of trust.

Corruption is the misuse of office or power or influence for private gain.

The group has a well-established reputation for conducting business in an ethical and honest way. This reputation is built on our company value of Integrity, which is a major, underlying theme found throughout our Code of Responsible Business Practice.

The group manages bribery and corruption risk in line with the group's established risk management framework. The group ensures accurate books and record keeping for proper financial reporting, effective monitoring and internal control to prevent bribery and corruption.

Cybersecurity Risk

This is the probability of exposure or loss resulting from a cyber attack or data breach. This risk has become heightened by the need to implement remote working system across many organizations globally and the high growth of digital economy. As more and more insurance business process and exchange are digitalized, breaches increase from hackers often with pecuniary or malicious intention for disruptions. This underscores a clear need for threat intelligence tools and security programs to reduce organization's cyber risk and highlight potential attack surfaces evidenced by recent 'solarwind' cyber-attack that exposed many reputable organizations and the US government departments. Our company has invested in safeguard of its data, third party data and provide adequate Business Continuity Plan(BCP). The company experienced no cyber security issue in the year, and it is hoped that the adequacy of our BCP and the company's Disaster Recovery Plan (DRP) can be deployed to serve all stakeholders in case of any cyber attack on the company's operations.

Health Risk

The COVID 19 pandemic had its effect on the activities of the company as the offices of the company were closed during the total lockdown in line with government pronouncements though remote working was activated to enable the company to operate smoothly. Following the lift of the lockdown and in line with NCDC protocols, the company and staff had continued to adhere strictly adhere to all the non-pharmaceutical interventions and directives in all its offices. This is to safeguard the health and well being of staff and all who have reason to visit the company's offices.

Business Risk

The company, just like others in the country felt the impact of the COVID-19 pandemic. The Company examined the impact on the business and strategy performance especially in the hardest hit areas of the economy like Aviation, Oil/Gas, Hospitality and Tourism. Provisions were made for the continued functioning of each Strategic Business Unit(SBU) which enabled the company to weather the peak of the pandemic in Nigeria. The company also have post COVID-19 plans aimed at repositioning the company for greater service delivery efficiency reckoning new realities of business climate.

ASSET/LIABILITY MANAGEMENT

58 Capital Management

The Group's objectives with respect to capital management are to maintain a capital base that is structured to exceed regulatory and to best utilize capital allocations.

Insurance industry regulator measures the financial strength of Non-life insurers using a solvency margin model, NAICOM generally expect non-life insurers to comply with this capital adequacy requirement.

Section 24 of the Insurance Act 2003 define Solvency Margin of a Non-life insurer as the difference between the admissible assets and liabilities and this shall not be less than 15% of Net Premium Income (Gross Premium Income less Re-insurance premium paid) or the minimum capital base (3 billion) whichever is higher.

This test compares insurer's capital against the risk profile. The regulator indicated that insurers should produce a minimum solvency margin of 100%.

During the year, the Group has consistently exceeded this minimum. The regulator has the authority to request more extensive reporting and can place restrictions on the Group's operations if the Group falls below this requirement.

Fair Value Hierarchy

The Group's accounting policy on fair value measurements is discussed under note 3.2

Level 1: Fair value measurements classified as Level 1 include exchange-traded prices of fixed maturities and equity securities unadjusted in active market for identical assets and liabilities.

Level 2: The valuation techniques based on observable inputs. This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data. Observable inputs generally used to measure the fair value of securities classified as Level 2 include benchmark yields, reported secondary trades, broker-dealer quotes, issuer spreads, benchmark securities, bids, offers and reference data.

Level 3: This includes financial instruments, the valuation of which incorporate significant inputs for the asset or liability that is not based on observable market data (unobservable inputs). Unobservable inputs are those not readily available in an active market due to market illiquidity or complexity of the product. Hence fair values can only be calculated using estimates based on available data or risk adjusted value range.

The following table analyses financial instruments measured at fair value at the end of the reporting period, by the level in the fair value hierarchy into which the fair value measurement is categorized:

	Level 1 N'000	Level 2 N'000	Level 3 N'000	Total N'000

Determination of Fair Value

The determination of fair value for each class of financial instruments was based on the particular characteristic of the instruments. The method and assumptions applied are enumerated as follows:

Cash and cash equivalent, borrowings and unquoted held to- maturity bonds

The estimated fair value of fixed interest placement with banks, treasury bill, bonds and borrowings is based on the discounted cash flow techniques using prevailing money market interest rates for debts and similar credit risk and remaining maturity. If the due date of the liability or the asset is less than one year discounting is omitted

Quoted securities at fair value through profit or loss (FVTPL)

The fair value for quoted equity is based on market prices quotations prevailing at capital market at the reporting date

Unquoted equity securities (available for sale)

The fair value of unquoted equity is based on the cost model using the latest audited financial information available.

Insurance liabilities

See Note 3.16

Trade receivables and payables, reinsurance receivables and other payables

The estimated fair value of receivables and payables with no stated maturity which includes no interest payables and receivables is the amount repayable or to be received on demand.

SEGMENT INFORMATION

Following the management approach of IFRS 8, the Group is organised into four operating segments. These segments distribute their products through various forms of brokers, agencies, and direct marketing programs. Management identifies its reportable operating segments by product line. These segments and their respective operations are as follows:

Non-life/General business

The protection of customers' assets (particularly their properties, both for personal and commercial business) and indemnification of other parties that have suffered damage as a result of customers' accidents. All contracts in this segment are over a short contractual term. Revenue in this segment is derived primarily from insurance premium, investment income, net realized gains on financial assets, and net fair value gains on financial assets at fair value through profit or loss.

Properties & Investment

This segment undertakes real estate development projects and offers finance lease facilities to meet the needs of individuals and corporate bodies.

Revenue from this segment is derived primarily from fee income, investment income, net realised gain on financial assets.

Retail and Microfinance Banking

This segment provides financial services in retail and microfinance banking. Revenue from this segment is primarily derived from interest income, fees and commission.

Vehicle Tracking Services

This segment provides quality and dependable automatic vehicle tracking and location solutions. It provides and installs vehicle tracking and fleet management products on daily basis. Revenue in this segment is derived primarily from trading income and investment income

The segment information provided by Management for the reporting segments for the year ended 31 December 2020

REGENCY ALLIANCE INSURANCE PLC

27TH ANNUAL GENERAL MEETING

PROXY FORM

I/We.....
(Name of Shareholder(s) in BLOCK LETTER please)

of.....

being a Shareholder/Shareholders of Regency Alliance Insurance Plc hereby appoint Mr. Clem Baiye or failing him Mr. Biyi Otegbeye or failing him Mrs. Anu Shobo as my/our proxy to act and vote for me/us on my/our behalf at the 27th Annual General Meeting of Regency Alliance Insurance Plc or any adjournment thereof.

Dated this Day of 2021

Signature:.....

A Shareholder entitled to attend and vote at the Annual General Meeting is entitled to appoint a proxy in his /her stead. The proxy form has been prepared to enable you exercise your right to vote.

Please sign the proxy form and post it to reach the Registrars Meristem Registrars and Probate Services Ltd. 213, Herbert Macaulay Way, Ebute Metta, Lagos, Lagos State or the Company Secretary at the registered office of the Company or mail to info@meristemregistrars.com or info@regencyalliance.com not later than 48 hours before the time of holding the meeting.

For Joint Shareholders any one of such shareholders may complete the form, but the name of all joint shareholders must be stated.

If executed by a corporate body, the proxy form should be sealed with a Company Seal.

The Stamp Duties Act Cap 411 Laws of the Federation 1990 provides that any instrument of proxy to be used for the purpose of voting by any person entitled to vote at any meeting of shareholders must be stamped. This shall be at the expense of the Company provided the proxy forms are duly completed and submitted as stated herein before.
